CHARACTERISTICS OF DEGREE PROGRAMME

General and specific learning objectives

The undergraduate programme in Language Mediation and Intercultural Communication (applied to economics, law and society) aims to train language mediators who possess solid language skills - combined with a sound knowledge of cultural studies and of the principles of economics, law, and sociology - and who are therefore capable of providing inter-linguistic

services in a variety of contexts, ranging from public and private institutions, to schools and vocational training centres, to companies and other organizations in which language mediation and intercultural communication are of paramount importance.

Expected learning outcomes

The course helps students acquire solid practical language skills in at least two languages besides Italian, backed up by a thorough grounding in theoretical aspects, particularly those relating to languages for special purposes. The course also offers a wide and in-depth introduction to the cultural aspects of each language studied, as well as covering areas like modern Italian literature, contemporary history, sociology, law, economics and geography. Students will acquire the skills needed to compare different social systems and understand the dynamics of intercultural communication. A broad outline of the legal systems in force in today?s world is also provided. Additionally, the course offers an introduction to the main themes of macro and microeconomics and the way individual markets work by examining key concepts underlying production, trade and consumption. The theory and methods of human geography, particularly those aspects involved in globalisation, will also be introduced.

Professional profile and employment opportunities

Graduates from the degree programme in Language Mediation and Intercultural Communication (applied to economics, law and society) will find career opportunities in all areas involving international relations, both at the interpersonal level and in corporate contexts (foreign relations, import/export departments, employment in the foreign offices of Italian companies, or in the offices of foreign companies in Italy), public services, and tourism and related sectors of the hospitality industry. Further opportunities are available in document search activities ? both at national and at international level -, drafting memos, reports, minutes and other types of correspondence in a foreign language as well as Italian. The publishing sector also offers career prospects, ranging from the translation of semi-specialised texts in the domains of economics, law, sociology and cultural studies, to tourism, art publishing and journalism in general. Careers prospects exist wherever language mediation and intercultural communication activities occur in both the corporate sphere and public institutions. Additional employment opportunities are provided by partnership initiatives within the framework of international bodies and organisations, and by involvement in national and/or international projects (both at a European and at a supra-European level) requiring solid linguistic and cultural skills alongside a firm grasp of the principles of economics, sociology or law.

Initial knowledge required

For A.Y. 2022-23, Year I of the programme is not available and admissions will not open. Consequently, Years II and III will not be available in A.Y. 2023-24 and A.Y. 2024-25, respectively.

EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment.

The agreements entered into by the University with over 300 universities from the 27 EU member countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

Study and internships abroad

Within the framework of the Erasmus programme, 58 exchange agreements are in place, covering 19 countries: Austria, Belgium, Bulgaria, Estonia, France, Germany, Hungary, Ireland, Latvia, Malta, Norway, the Netherlands, Portugal, Poland, Rumania, Spain, Sweden, United Kingdom, plus Switzerland, which participates in the Erasmus + programme as a partner country. Additionally, Erasmus traineeship agreements have also been signed with companies and institutions in some of the above-mentioned countries.

Additionally, a number of exchange agreements are in place with partner universities in non-European countries. Under these agreements, students have the opportunity to attend classes and take exams at partner institutions. Such activities and exam results may be validated in full or in part, with the corresponding credits concurring to fulfil the requirements for the attainment of the degree. Courses are typically offered in the areas of languages and the humanities, and are available in the following partner institutions:

- ARGENTINA: Universidad Nacional de Villa María (Córdoba); Universidad Nacional de La Plata (La Plata)
- CIHNA: Liaoning Normal University
- COLOMBIA: Pontificia Universidad Javeriana (Bogotá)
- CUBA: Universidad de Oriente (Santiago de Cuba)
- INDIA: Manipal (Karnataka)
- JAPAN: Doshisha University (Kyoto), Meiji University (Tokyo), Waseda University (Tokyo), Kyoto University of Foreign Studies, Ibaraki Christian University, Osaka University
- MEXICO: Universidad de Guadalajara (Guadalajara), Universidad del Claustro de Sor Juana (Città del Messico), UNAM - Universidad Autonoma de Mexico
- RUSSIAN FEDERATION: LUNN – Linguistic University (Nižnij Novgorod), Novosibirsk Pedagogical State University (Novosibirsk), Istituto Puškin (Mosca), RGGU (RSUH) Russian Universities for the Humanities (Mosca), MGPU Moscow Pedagogical University (Mosca), HSE High School of Economics (Mosca)

Besides the Erasmus exchange agreements, the Course also has one double degree program in place whereby participating students earn degrees from both institutions:

- The double degree program with AMU - Aix Marseille Université, awards students a degree in Language Mediation and Intercultural Communication issued from UNIMI and a degree in Langues étrangères appliquées - LEA, issued by AMU. Participating UNIMI students spend the third year of their course at AMU Aix-Marseille Université. For further information please contact Prof. Giovanni Turchetta (giovanni.turchetta@unimi.it)

How to participate in Erasmus mobility programs

The students of the University of Milan can participate in mobility programmes, through a public selection procedure.
Ad hoc commissions will evaluate:
• Academic career
• the candidate's proposed study programme abroad
• his/her foreign language proficiency
• the reasons behind his/her application

Call for applications and informative meetings
The public selection for Erasmus+ mobility for study generally begins around February each year with the publication of a call for applications specifying destinations and requirements. Regarding the Erasmus+ Mobility for Traineeship, the University of Milan usually publishes two calls a year enabling students to choose a destination defined by an inter-institutional agreement or to find a traineeship position on their own.

The University organizes informative meetings to illustrate mobility opportunities and rules for participation.

Erasmus+ scholarship
The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which may be supplemented by the University funding for disadvantaged students.

Language courses
Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by the University Language Centre (SLAM).
