CHARACTERISTICS OF DEGREE PROGRAMME

General and specific learning objectives

The degree programme in Sciences of Legal Services is intended to provide students with a baseline in legal studies, teaching them how to apply law to facts. The degree programme in Sciences of Legal Services trains students to enter a wide array of legal professions. On the public-sector side, the programme is for students hoping to enter a career in territorial administration (whether on a national, regional, or local level), working with a public entity or public holding. In terms of the private sector, the expected career path for graduates includes working in banking, insurance, finance, and more generally in investing and brokering, in the fields of compliance, contract management, and working with clients to avoid

litigation. The degree programme also focuses on training experts in labour law, with the skill set and professional pedigree needed for HR management, union relations, collective bargaining, benefits management, and corporate welfare. Furthermore, the programme allows students to develop a specific understanding regarding issues relating to the evolution and governance of the non-profit arena within the Italian legal system. Graduates may have opportunities working directly for a company, public agency, or professional firm, or as independent professionals and entrepreneurs.

Indispensable for these professions is an understanding of a finite set of legal concepts, as well as a background in sociology, economics, and law-related computer skills. English-language proficiency is likewise required.

In a nutshell, we expect that upon graduating, those earning a degree in Sciences of Legal Services would know how to apply (using independent judgement and strong communication skills) their knowledge to solve problems in a wide range of professions within the legal field.

The degree programme in Sciences of Legal Services has four different curricula:

- A. Corporate legal-affairs expert
- B. Public-Administration legal-affairs expert
- C. HR legal-affairs expert
- D. Non-profit legal-affairs expert

Notes

Admission requirements

Qualifications and skills required for admission

Admission into the Bachelor's degree programme in Sciences of Legal Services is conditional upon earning a secondary, high-school, or college-preparatory diploma, or other equivalent foreign diploma, and suitable educational background.

Enrolment in the programme is not capped.

Admission assessment

The Faculty requires a non-binding self-assessment test (CISIA Consortium TOLC-SU). This is mandatory for all students, and intended to educate students on the choice they are making and to assess their educational background, especially their general baseline of knowledge, and their reasoning and logic abilities. The dates and procedures for the test will be provided in the general call for applications.

Additional learning requirements (OFA)

Students may matriculate regardless of their test results. Students scoring less than 20/50 on the first three sections, or less than 12/30 in the "Reading comprehension and Italian language" portion of the test will be assigned additional learning requirements (OFA) aimed at filling these gaps. The OFA must be satisfied within the first year of the programme through the remedial work contemplated by the University. Information on OFA procedures, and failure to complete the OFA will be provided on the degree programme's webpage.

EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment.

The agreements entered into by the University with over 300 universities from 30 different countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

Study and internships abroad

The programme offers a wide variety of study-abroad opportunities, with a full range of coursework options. Beginning in the second semester of Year I, students may study abroad at one or more European universities as part of the Erasmus+ Programme. Our university partners include: Austria (Innsbruck), Germany (Frankfurt, Costanza, Tübingen, Osnabrück, Heidelberg), Belgium (Brussels, Leuven), France (Cergy Pointoise, Montpellier, Paris, Rheims, Strasbourg, Toulouse), Finland (Helsinki), Greece (Thessaly), Great Britain (Edge Hill), Norway (Bergen), Netherlands (Nijmegen, Wageningen), Portugal (Coimbra, Lisbon, Oporto), Czech Republic (Prague), Poland (Krakow, Breslavia, Poznań), Croatia (Zagreb), Romania (Timișoara), Hungary (Budapest), Sweden (Lund), Spain (Barcelona, Castellón, Girona, Granada, Huelva, La Coruña, Lleida, Madrid, Oviedo, Pamplona, San Sebastian, Seville, Valencia, Santiago de Compostela), Turkey (Istanbul). Students admitted into the programme pursue academic training through foreign universities. There, they have the option to research and write their thesis, whilst benefiting from a scholarship, and earning academic credit for any exams passed or academic work completed. Students are also eligible for bonus points on their final degree mark for their thesis. An analogous programme is available in Switzerland through the Swiss European Mobility (Geneva, Lucerne, Freiburg).

Students also have the option of studying abroad for six months, earning academic credit for exams and academic activities, as well as bonus points on their final degree mark for their thesis, at the following non-EU campuses: U.S. (Ithaca, New York), China (Xiamen, Shanghai, Sozhou and Beijing), Japan (Kobe), Brazil (Niterói), South Korea (Seoul) and Canada (Montreal).

Through the Erasmus + Placement programme students have internship opportunities, beginning in Year III. Internships are currently available through businesses, law firms, or other institutions in England, Germany, Austria, Belgium, France, and Portugal. Students will enjoy, in addition to a scholarship, transfer credit for all successfully completed work, as well as bonus points on their final degree mark for their thesis.

Additionally, each year the Faculty gives students a chance to be a part of a national and international Moot Court competition team. Finally, students will have the opportunity to take part in international Summer Schools.

How to participate in Erasmus mobility programs

How to participate in Erasmus+ mobility programmes

The students of the University of Milan can participate in mobility programmes, which last 3 to 12 months, through a public selection procedure.

Ad hoc commissions will evaluate:

- the candidate's proposed study programme abroad
- his/her foreign language proficiency
- the reasons behind his/her application

Call for applications and informative meetings

The public selection generally begins around February each year with the publication of a call for applications specifying the destinations, with the respective programme duration, requirements and online application deadline.

Every year, before the deadline for the call, the University organizes informative meetings to illustrate opportunities and rules for participation to students.

Erasmus+ scholarship

The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which is supplemented by the University funding for disadvantaged students.

Language courses

Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by the University.
