## **CHARACTERISTICS OF DEGREE PROGRAMME**

### **General and specific learning objectives**

The Master's Degree Programme in Law provides focussed and specialised training, with a systematic and methodological approach, in the field of legal institutions. The programme is both national and international in scope, providing a wide-ranging interdisciplinary approach to legal issues.

The Master's Degree Programme in Law prepares students for traditional careers in the field (attorney, magistrate, notary),

but it also gives them the opportunity to explore a number of other law-related career paths, including as a consultant or salaried employee. A Master's degree in Law is the only pathway to the Postgraduate School of Legal Professions.

### **Expected learning outcomes**

In accordance with Europe-wide academic standards, the following is a list of anticipated learning outcomes and proficiencies under the Dublin Descriptors:

A – Knowledge and understanding. Students receive general education to develop their understanding of legal concepts on both a basic and advanced level, and the issues relating to the same. Students will be provided a solid baseline in philosophy, sociology, economics, and information technology, as well.

B – Applying knowledge and understanding. Students will acquire the necessary tools to apply the legal concepts and foundations they have learned, and apply these to concrete facts. They will be able to tackle and solve problems on new and unusual topics arising in the field of law, using an interdisciplinary approach if and when needed.

C – Making judgements. Students will acquire critical-thinking skills in terms of understanding and interpreting sources of law and jurisprudence, and for the purpose of finding the best solution to a concrete problem, grounded in their own field of study or operations.

D – Communication skills. Students will acquire a working knowledge of legal Italian, expression, communication, and rhetoric skills as they relate to the legal field, in order to be able to interact effectively with professionals and lay persons alike, as well as computer and foreign-language skills, whether general or specific to the legal profession, necessary for the career the student wishes to pursue.

E – Learning skills. Acquisition of specific competencies to pursue continuing legal education to keep pace with statutory and regulatory changes, and to develop other skills; the ability to delve into legal and social issues related or incidental to one's original studies, using all logical and continuing-education tools to develop one's understanding.

### **Professional profile and employment opportunities**

Professional opportunities for those earning this degree may be summarised, in a very general way, using the ISTAT (Italian National Statistics Institute) professional classification as follows:

- Attorneys

- Role in the workforce: The professions included in this category represent and safeguard the interests of individuals and organisations in legal proceedings, and at the various levels of civil, criminal, and administrative actions; they draft deeds, contracts, and other legal documents; they provide legal advice and counsel.

- Skills associated with this role: These professionals must possess adequate knowledge in the field of civil, criminal, administrative, and tax matters.

- Employment opportunities: Legal practice, upon completion of the legal-apprenticeship period and passing the State Exam to be able to practice law.

- Notaries

- Role in the workforce: Generate and record inter vivos and mortis causa deeds; notarise the same; retain them; issue copies, excerpts, and certifications for the same; determine the intent of the contracting parties, and memorialise such intent in writing, ensuring the lawfulness of the deed or other official document resulting therefrom; recommend the proper legal instrument for the parties to reach their goals; vet the legal compliance of the content of any resulting agreement or transaction.

- Skills associated with this role: These professionals must possess adequate knowledge in the field of legal affairs, civil, zoning, tax, international, and EU law in particular.

- Employment opportunities: Legal practice, upon completing the apprenticeship period and passing the State Exam to be licensed as a notary.

- Magistrates

- Role in the workforce: Adjudicate criminal, civil, and administrative matters at various levels of proceedings; oversee criminal procedure and exercise the power of the State in criminal proceedings; conduct judicial review of public expenditures under current statutes and regulations.

- Skills associated with this role: These professionals must possess adequate knowledge in the field of civil, criminal, administrative, international, and EU law.

- Employment opportunities: Courts of ordinary, administrative, and tax regulation, upon passing the State Exam.

- Corporate legal affairs personnel

- Role in the workforce: These professionals address, manage, and coordinate operations through designated offices regarding the legal aspects of a business; they generate deeds, contracts, and other legal documents; they provide consulting on legal matters within their assigned department or division.

- Skills associated with this role: These professionals must possess solid knowledge in the legal field, civil and tax matters in particular.

- Employment opportunities: Employment in corporate legal affairs offices.

- Public administration legal affairs personnel

- Role in the workforce: These professionals address, manage, and coordinate operations through designated offices regarding the legal aspects of their public agency or entity, or the Public Administration at large; they generate deeds, contracts, and other legal documents; they provide consulting on legal matters within their assigned department or division.

- Skills associated with this role: These professionals must possess solid knowledge in the legal field, administrative matters in particular.

- Employment opportunities: Employment in the legal affairs offices of national and supra-national entities of Public Administration, upon passing the State Exam.

## Notes

### Admission requirements

#### Qualifications and skills required for admission

Admission into the Master's Degree Programme in Law is conditional upon earning a secondary, high-school, or college-preparatory diploma, or other equivalent foreign diploma, and suitable recognised educational qualifications.

Enrolment in the programme is not capped.

### Admission assessment

The Faculty requires a non-binding self-assessment test (CISIA Consortium TOLC-SU). This is mandatory for all students, and intended to educate students on the choice they are making, assess their educational background, especially their general baseline of knowledge, and their reasoning and logic abilities. The dates and procedures for the test will be provided in the general call for applications.

### Additional learning requirements (OFA)

Students may matriculate regardless of their test results. Students scoring less than 20/50 on the first three sections or less than 12/30 in the "Reading comprehension and Italian language" portion of the test will be assigned additional learning requirements (OFA) aimed at filling these gaps. The OFA must be satisfied within the first year of the programme through the remedial work contemplated by the University. Information on OFA procedures and failure to complete the OFA will be provided on the degree programme's webpage.

### English-language OFA – Proficiency Level B2

To get full advantage of this programme, one must be proficient in English at a B2 level under the Common European Framework of Reference for Languages (CEFR).

English-language proficiency at a B2 level or higher as defined in the CEFR may be certified in the following manner:

a) Through a language certification, earned within three years prior to the date of submission, at a B2 level or higher (for the list of language certifications recognised by the University, please review: <https://www.unimi.it/en/study/language-proficiency/placement-tests-entry-tests-and-english-courses>). The certificate must be uploaded at enrolment.

b) Through a Placement Test, administered by SLAM during Year I, from October to December. Should a student fail the test, he/she must take the course provided by SLAM.

The Placement Test is mandatory for all students who fail to submit a valid certificate.

Those who do not take the Placement Test by December, or who fail to pass the final exam for the course within six (6) attempts, must obtain an outside (paid) certification by the programme year contemplated for their exam in English.

## **EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM**

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment.

The agreements entered into by the University with over 300 universities from 30 different countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

### **Study and internships abroad**

The programme offers a wide variety of study-abroad opportunities, with a full range of coursework options. Beginning in the second semester of Year I, students may study abroad at one or more European universities as part of the Erasmus+ Programme. Our University partners include: Austria (Innsbruck), Germany (Frankfurt, Costanza, Tübingen, Osnabrück, Heidelberg), Belgium (Brussels, Leuven), France (Cergy Pointoise, Montpellier, Paris, Rheims, Strasbourg, Toulouse), Finland (Helsinki), Greece (Thessaly), Great Britain (Edge Hill), Norway (Bergen), Netherlands (Nijmegen, Wageningen), Portugal (Coimbra, Lisbon, Oporto), Czech Republic (Prague), Poland (Krakow, Breslavia, Poznań), Croatia (Zagreb), Romania (Timișoara), Hungary (Budapest), Sweden (Lund), Spain (Barcelona, Castellón, Girona, Granada, Huelva, La Coruña, Lleida, Madrid, Oviedo, Pamplona, San Sebastian, Seville, Valencia, Santiago de Compostela), Turkey (Istanbul). Students admitted into the programme pursue academic training through foreign Universities. There, they have the option to research and write their thesis, whilst benefiting from a scholarship, and earning academic credit for any exams passed or academic work completed, as well as bonus points on their final degree mark. An analogous programme is available in Switzerland through the Swiss European Mobility (Geneva, Lucerne, Freiburg).

Students also have the option of studying abroad, earning academic credit for exams and academic activities, as well as bonus points on their final degree mark, at the following non-EU Universities: U.S. (Ithaca, New York), China (Xiamen, Shanghai, Sozhou and Beijing), Japan (Kobe), Brazil (Niterói), South Korea (Seoul) and Canada (Montreal).

A double-degree programme is currently in place with the Universities of Toulouse and Cergy Pontoise (France). This programme allows top students, fluent in French, to earn both an Italian and a French Degree.

Through the Erasmus + Placement programme students have internship opportunities in Europe, beginning in Year III.

Internships are currently available through businesses, law firms, or other institutions in England, Germany, Austria, Belgium, France, and Portugal. Students will enjoy, in addition to a scholarship, transfer credit for all successfully completed work, as well as bonus points on their final degree mark.

Additionally, each year the Faculty gives students a chance to be a part of a national and international Moot Court competition team. Finally, students will have the opportunity to take part in international Summer Schools.

### How to participate in Erasmus mobility programs

How to participate in Erasmus+ mobility programmes

The students of the University of Milan can participate in mobility programmes, which last 3 to 12 months, through a public selection procedure.

Ad hoc commissions will evaluate:

- the candidate's proposed study programme abroad
- his/her foreign language proficiency
- the reasons behind his/her application

Call for applications and informative meetings

The public selection generally begins around February each year with the publication of a call for applications specifying the destinations, with the respective programme duration, requirements and online application deadline.

Every year, before the deadline for the call, the University organizes informative meetings to illustrate opportunities and rules for participation to students.

Erasmus+ scholarship

The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which is supplemented by the University funding for disadvantaged students.

Language courses

Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by the University.
