EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports the international mobility of its students, offering them the opportunity to spend periods of study and training abroad, a unique opportunity to enrich their curriculum in an international context.

Study and internships abroad

We strongly suggest to take advantage of the possibilities offered by the Erasmus+ project.

Our students may spend up to three terms (two semesters) in a foreign university, in the framework of the Erasmus+ agreements signed by the University of Milano. Students can follow the courses offered in partner universities, take their exams, complete their research and write the essay for their final thesis. All these activities will be recognized as part of their duties according to their predefined "Learning agreement".

Our Bachelor program has Erasmus+ exchange agreements with 8 European foreign universities, in the field of social and political sciences, economics, history and law. Some of these agreements are in common with other Ba programmes of the Faculty of Political, Social and Economic sciences. More specifically, we offer up to 24 exchange positions with universities in Spain, 14 in Germany, 14 in France, 5 in Denmark, 2 each for Norway, Portugal and Spain, and 1 in the United Kingdom. In the period abroad students must obtain at least 18 Ects. Before leaving, they will have to prepare their "Learning agreement" together with professor Beatrice Magni, in charge for the Erasmus+ program. After their return, they will have to complete the procedure for the recognition of the Ects earned abroad with the Erasmus office of the Department of Social and Political Sciences.

. PROGRAMMA ERASMUS+ PLACEMENT

There is even the possibility of paid internships in foreign companies or organizations, for a period of up to 12 months, according to the Erasmus+ placement framework.

How to participate in Erasmus mobility programs

To gain access to mobility programs for study purposes, lasting 3-12 months, the enrolled students of the University of Milan must attend a public selection that starts usually around the month of February each year through the presentation of specific competition announcements, which contain information on available destinations, respective duration of the mobility, requirements and deadlines for submitting the online application.

The selection, aimed at evaluating the proposed study abroad program of the candidate, knowledge of a foreign language, especially when this is a preferential requirement, and the motivations behind the request, is performed by specially constituted commissions.

Each year, before the expiry of the competition announcements, the University organises information sessions for the specific study course or groups of study courses, in order to illustrate to students the opportunities and participation rules.

To finance stays abroad under the Erasmus + program, the European Union assigns to the selected students a scholarship that - while not covering the full cost of living abroad - is a useful contribution for additional costs as travel costs or greater cost of living in the country of destination.

The monthly amount of the communitarian scholarship is established annually at national level; additional contributions may be provided to students with disabilities.

In order to enable students in economic disadvantaged conditions to participate in Erasmus+ program, the University of Milan assigns further additional contributions; amount of this contributions and criteria for assigning them are established from year to year.

The University of Milan promotes the linguistic preparation of students selected for mobility programs, organising every year intensive courses in the following languages: English, French, German and Spanish.

The University in order to facilitate the organisation of the stay abroad and to guide students in choosing their destination offers a specific support service.
