CHARACTERISTICS OF DEGREE PROGRAMME

General and specific learning objectives

The three year undergraduate programme in International Science and European Institutions provides first-level interdisciplinary knowledge of economics, law, politics, sociology and history from both a European and international perspective. The course aims to provide students with specific competencies in both the trans-national and international aspects of contemporary society.

The overall aim of the degree is to develop the student's understanding of contemporary economic, political and social phenomena within both a European and international community framework.

EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports the international mobility of its students, offering them the opportunity to spend periods of study and training abroad, a unique opportunity to enrich their curriculum in an international context.

Study and internships abroad

In light of its international focus, the Bachelor degree programme in International Sciences and European Institutions provides enrolled students with a wide range of options, in terms of foreign institutions where they may follow part of their studies and take exams, in the context of the Erasmus+ Programme. Erasmus+ funded scholarships may be available.

The Department of International, Legal, Historical and Political Studies (DILHPS) – which is responsible for the Bachelor degree – collaborates with several partner Universities in France, Spain, Eastern Europe (mainly the Czech Republic, Poland and Lithuania), as well as in Germany, Denmark, Belgium, Norway and the United Kingdom. Moreover, thanks to specific arrangements with some Turkish Universities, students will have the chance to experience life and study in a stimulating cross-cultural environment.

While staying in a partner University, students will be able to pursue their studies, in particular in the fields of International

Relations, International and Comparative Law, Public and Private Law, History of International Relations and Politics.

The procedure for the recognition of exams taken abroad consists of two phases: a) before the student leaves, a 'Learning Agreement' will identify the courses that he is authorized to take abroad on the basis of the student's preferences and subject to the agreement of each Professor; b) upon the student's return, the University of Milan will recognize the exams included in the 'Transcript of Records' provided by the partner University and convert the grades received by the student.

How to participate in Erasmus mobility programs

To gain access to mobility programs for study purposes, lasting 3-12 months, the enrolled students of the University of Milan must attend a public selection that starts usually around the month of February each year through the presentation of specific competition announcements, which contain information on available destinations, respective duration of the mobility, requirements and deadlines for submitting the online application.

The selection, aimed at evaluating the proposed study abroad program of the candidate, knowledge of a foreign language, especially when this is a preferential requirement, and the motivations behind the request, is performed by specially constituted commissions.

Each year, before the expiry of the competition announcements, the University organises information sessions for the specific study course or groups of study courses, in order to illustrate to students the opportunities and participation rules.

To finance stays abroad under the Erasmus + program, the European Union assigns to the selected students a scholarship that - while not covering the full cost of living abroad - is a useful contribution for additional costs as travel costs or greater cost of living in the country of destination.

The monthly amount of the communitarian scholarship is established annually at national level; additional contributions may be provided to students with disabilities.

In order to enable students in economic disadvantaged conditions to participate in Erasmus+ program, the University of Milan assigns further additional contributions; amount of this contributions and criteria for assigning them are established from year to year.

The University of Milan promotes the linguistic preparation of students selected for mobility programs, organising every year intensive courses in the following languages: English, French, German and Spanish.

The University in order to facilitate the organisation of the stay abroad and to guide students in choosing their destination offers a specific support service.
