

UNIVERSITA' DEGLI STUDI DI MILANO
PROGRAMME DESCRIPTION - ACADEMIC YEAR 2019/20
BACHELOR
Economics and Management (Classi L-18/L-33)
enrolled until 2017/2018 academic year

HEADING

Degree classification - Denomination and code:	L-18/L-33
Degree title:	Dottore
Length of course:	3 years
Total number of credits required to complete programme:	180
Years of course currently available:	3rd
Access procedures:	Cap on student, student selection based on entrance test
Course code:	B23

PERSONS/ROLES

Head of Study Programme

Prof.ssa Chiara Tommasi

Tutors - Faculty

Prof. Giovanni Puccetti

Prof.ssa Marta Marsilio

Prof.ssa Veronica Grembi

CHARACTERISTICS OF DEGREE PROGRAMME

General and specific learning objectives

Bachelor's Degree in Economics and Management

The BA in Management Studies and Economics is a challenging programme enabling students to combine their studies of management with a particular focus on economic issues. This three-year degree course focuses on understanding economic phenomena from all their different perspectives so that the graduates will obtain the necessary knowledge required by the national and global job market.

The undergraduate degree programme explores issues that are crucial for the world we live in: how the economy and organisations work, and how resources are allocated and coordinated to achieve the objectives that are set. Economics and management are ideal intellectual partners, each one being particularly suitable to strengthen and cross-fertilise the other. Economics provides the broader understanding of economic activity within which all organisations work; management, in turn, analyses the character and goals of that functioning. The first two years include courses in economics, management, math, law and statistics so as to provide students with a solid foundation for the third year. Depending on the profession they would like to enter, students can then choose, in the third year, specialised courses to further increase their knowledge in the areas of marketing, finance and economics.

Competencies expected from Bachelors in Economics and Management

- Understanding of the foundations of Management and Economics through an introduction to the following basic subjects:
- political economics, microeconomics, macroeconomics,...
- main roles in business: accounting, finance, marketing,...
- legal, societal, and human environment of organizations
- methodological tools (mathematical modeling, statistics,...)
- Ability to critically apply learned knowledge to real situations observed in a simple field situation and/or in a transversal context
- Ability to summarize and communicate the knowledge acquired and the observations made
- Ability to integrate management decisions into their economic context (mixed training)

EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports the international mobility of its students, offering them the opportunity to spend periods of study and training abroad, a unique opportunity to enrich their curriculum in an international context.

Study and internships abroad

The degree in Economics and Management offers the opportunity to study at several European universities, where students will be able to attend lectures and obtain credits for their degree.

Our partners are selected among the most prestigious academic institutions in United Kingdom

(University of Leicester), in Germany (Hochschule Neuss fuer Internationale Wirtschaft), in Spain (Universidad Complutense de Madrid e Universidad de Salamanca), France (Université Jean Moulin – Lyon III), in Switzerland (Université de Fribourg), and other European countries.

The modules offered by our partners include core subjects and disciplines of Economics and Management such as Management, Economics, Accounting, Marketing.

The choice of modules is made by students before their departure in collaboration with the programme coordinator; the credits are recognized officially and included in the curriculum at the end of the exchange period.

How to participate in Erasmus mobility programs

To gain access to mobility programs for study purposes, lasting 3-12 months, the enrolled students of the University of Milan must attend a public selection that starts usually around the month of February each year through the presentation of specific competition announcements, which contain information on available destinations, respective duration of the mobility, requirements and deadlines for submitting the online application.

The selection, aimed at evaluating the proposed study abroad program of the candidate, knowledge of a foreign language, especially when this is a preferential requirement, and the motivations behind the request, is performed by specially constituted commissions.

Each year, before the expiry of the competition announcements, the University organises information sessions for the specific study course or groups of study courses, in order to illustrate to students the opportunities and participation rules.

To finance stays abroad under the Erasmus + program, the European Union assigns to the selected students a scholarship that - while not covering the full cost of living abroad - is a useful contribution for additional costs as travel costs or greater cost of living in the country of destination.

The monthly amount of the communitarian scholarship is established annually at national level; additional contributions may be provided to students with disabilities.

In order to enable students in economic disadvantaged conditions to participate in Erasmus+ program, the University of Milan assigns further additional contributions; amount of this contributions and criteria for assigning them are established from year to year.

The University of Milan promotes the linguistic preparation of students selected for mobility programs, organising every year intensive courses in the following languages: English, French, German and Spanish.

The University in order to facilitate the organisation of the stay abroad and to guide students in choosing their destination offers a specific support service.
