CHARACTERISTICS OF DEGREE PROGRAMME

General and specific learning objectives

This Master's degree programme aims to provide graduates with a range of specialisations in the fields of public communication, corporate communication, marketing, advertising and market and opinion research. The educational and cultural project of the course intends to offer an advanced and interdisciplinary education and training with a strong opening to the world of enterprise in the domestic and international contexts and to communication activities within public and political organisations.

Expected learning outcomes

The expected learning outcomes for graduates of this course will be:

- An in-depth knowledge of communicative and informational dynamics between communication systems, digital media and economic, social and political subjects, with particular regard to business-consumer and institution-citizen relations;
- An application capacity in terms of the acquisition of multi-disciplinary application competences of a methodological, technological and instrumental type for the analysis of communication and information systems;
- A competence in terms of managerial responsibility of internal and external communication processes to companies and public and social institutions, as well as public policy analysis and evaluation of their impact.

Professional profile and employment opportunities

Among the foreseeable professional outlets for graduates of the Master's degree in public and business communication are:

- ? Positions of high responsibility in the organization and management of press offices, external relations and Public relations Offices (URP);
- ? Planners and managers of institutional and enterprise communication plans;
- ? Experts in e-government in public administrations at local, provincial, regional and national level;
- ? Researchers and analysts in demoscopic institutes, market research, political analysis and public policy;
- ? Experts in the representation of interests at profit and non-profit enterprises, associations, public and private government agencies at sub-national, national, and international level;
- ? Political marketing consultants for parties and candidates

Prerequisites for admission to the Master's degree course are a good knowledge of the theories of communication and basic skills in IT, marketing and statistics.

Proficiency in English at a B2 level or higher per the Common European Framework of Reference for Languages (CEFR) is also required for admission.

The B2-level requirement will be ascertained by the University Language Centre (SLAM) upon admission as follows:

- Language certificate of B2 or higher level issued no more than three years before the date of admission application. You will find the list of language certificates recognized by the University at: <https://www.unimi.it/en/node/39322>. The certificate must be uploaded when submitting the online application;
- English level achieved during a University of Milan degree programme and certified by the University Language Centre (SLAM) no more than four years before the date of admission application, including levels based on language certificates submitted by the applicant during their Bachelor's degree at the University of Milan. In this case the process is automatic, the applicant does not have to attach any certificates to the application;
- Placement test administrated by the University Language Centre (SLAM) according to the calendar published on the website: (<https://www.unimi.it/en/node/39267/>)

All those who fail to submit a valid certificate or do not meet the required proficiency level will be instructed during the admission procedure to take the placement test.

Applicants who do not take or pass the placement test will be required to obtain a language proficiency certificate recognized by the University (see <https://www.unimi.it/en/node/39322>) and deliver it to the SLAM via the InformaStudenti service by the deadline fixed for the master's programme (<https://www.unimi.it/en/node/39267/>).

Applicants who do not meet the requirement by said deadline will not be admitted to the master's degree programme and may not sit any further tests.

Compulsory attendance

Course attendance is highly recommended.

Degree programme final exams

The Master's degree in Public and Business Communication is obtained after passing a final test, which consists in the presentation and discussion of a written work, or a multimedia product, in an original form by the student under the guide of a speaker. The paper can also be written in English. To be admitted to the final exam, the student must have earned 99 credits.

Notes

The choice of alternative courses will be limited to those actually taught.

Among the electives, those who do not hold an Italian high school diploma or university degree can obtain 3 credits in Additional language skills: Italian by demonstrating A2 level in Italian per the Common European Framework of Reference for Languages (CEFR). This level can be assessed in one of the following ways:

- by submitting a certificate of A2 or higher level issued no more than three years prior to the date of submission. You will find the list of language certificates recognized by the University at: <https://www.unimi.it/en/node/349/>). The language certificate must be submitted to the University Language Centre (SLAM) via the Language Test category of the InformaStudenti service: <https://informastudenti.unimi.it/saw/ess?AUTH=SAML>;
- by an entry-level test administrated by SLAM that can be taken only once and is compulsory for all students who do not have a valid language certificate. Those who fail to reach A2 level will have to attend one or more than one 60-hour Italian course(s) 60-hour Italian course geared to their level.

Those who do not take the entry-level test or fail to pass the end-of-course test after six attempts will have to obtain language certification privately in order to earn the 3 credits of Additional language skills: Italian. As an alternative, they can modify their course programme by choosing a different elective.

EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment.

The agreements entered into by the University with over 300 universities from the 27 EU member countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

Study and internships abroad

The MA in Public and Corporate Communication, through the Department of Social and Political Sciences, has signed exchange agreements with the Japanese university "Doshisha" (Tokio).

Students can attend a semester in the faculties and graduate courses specified in the agreements, and have their exams recognized, as in the Erasmus program. An excellent knowledge of the English language, properly certified, is required to participate. Special calls establish other conditions to enter the selection. These exchanges do not enjoy any financial support from the University of Milano.

How to participate in Erasmus mobility programs

The students of the University of Milan can participate in mobility programmes, through a public selection procedure.

Ad hoc commissions will evaluate:

- Academic career
- the candidate's proposed study programme abroad
- is/her foreign language proficiency
- the reasons behind his/her application

Call for applications and informative meetings

The public selection for Erasmus+ mobility for study generally begins around February each year with the publication of a call for applications specifying destinations and requirements. Regarding the Erasmus+ Mobility for Traineeship, the University of Milan usually publishes two calls a year enabling students to choose a destination defined by an inter-institutional agreement or to find a traineeship position on their own.

The University organizes informative meetings to illustrate mobility opportunities and rules for participation.

Erasmus+ scholarship

The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which may be supplemented by the University funding for disadvantaged students.

Language courses

Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by SLAM - University of Milan Language Centre.
