EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports the international mobility of its students, offering them the opportunity to spend periods of study and training abroad, a unique opportunity to enrich their curriculum in an international context.

Study and internships abroad

Our program offers the opportunity to live a learning experience abroad, of a period from 5 to 10 months, in various campuses in Spain, France, Germany, Sweden, Finland and the U.K. It is addressed to students interested in activities such as attending courses, doing research or dissertation writing in academic disciplines that fall within the information and communication sciences, the publishing sciences, the fine arts and performing arts.

In particular, this university has active international cooperation agreements with the Universities of Cardiff, Stockholm, Helsinki, which offer courses entirely taught in English; cooperation agreements with the Spanish universities of Barcelona, Madrid and Zaragoza and with many French campuses in Paris as well as in Lille, in Montpellier, Le Mans, Avignon; and with Heidelberg University, Germany. The course is also active in the Erasmus Plus-Placement programme, which includes mobility also for graduate students (within 12 months since they have obtained their degrees).

Exams taken abroad, research activity and dissertations get credit recognition after a curriculum is agreed upon with the host university. Before leaving, students define a Learning agreement plan according to the exams they intend to take and the activities they are going to do at the partner university, in line with their Italian curriculum.

How to participate in Erasmus mobility programs

To gain access to mobility programs for study purposes, lasting 3-12 months, the enrolled students of the University of Milan must attend a public selection that starts usually around the month of February each year through the presentation of specific competition announcements, which contain information on available destinations, respective duration of the mobility, requirements and deadlines for submitting the online application.

The selection, aimed at evaluating the proposed study abroad program of the candidate, knowledge of a foreign language,

especially when this is a preferential requirement, and the motivations behind the request, is performed by specially constituted commissions.

Each year, before the expiry of the competition announcements, the University organises information sessions for the specific study course or groups of study courses, in order to illustrate to students the opportunities and participation rules.

To finance stays abroad under the Erasmus + program, the European Union assigns to the selected students a scholarship that - while not covering the full cost of living abroad - is a useful contribution for additional costs as travel costs or greater cost of living in the country of destination.

The monthly amount of the communitarian scholarship is established annually at national level; additional contributions may be provided to students with disabilities.

In order to enable students in economic disadvantaged conditions to participate in Erasmus+ program, the University of Milan assigns further additional contributions; amount of this contributions and criteria for assigning them are established from year to year.

The University of Milan promotes the linguistic preparation of students selected for mobility programs, organising every year intensive courses in the following languages: English, French, German and Spanish.

The University in order to facilitate the organisation of the stay abroad and to guide students in choosing their destination offers a specific support service.
