EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports the international mobility of its students, offering them the opportunity to spend periods of study and training abroad, a unique opportunity to enrich their curriculum in an international context.

Study and internships abroad

The undergraduate course in History and the postgraduate course in Historical Studies have an old tradition of international exchange that started at the beginning of the Erasmus Programme, which is now called Erasmus Plus.

The annual exchange opportunities are available to both students and professors. The University of Milan has Erasmus exchange agreements with universities in the Netherlands, Belgium, France, Spain, Portugal, Germany, Austria, Hungary, Poland, Romania, Turkey and Cyprus.

All students currently enrolled at either the undergraduate History course or the postgraduate M.A. course in Historical Studies can study abroad at a partner university for 6 or 9 months. Students who are attending a Ph.D. course can also study abroad at some of the above destinations.

While abroad, a student can attend courses, take exams and do research work, which then will be given an amount of credits depending on the study contents and on the duration of the exchange.

The study programme, which is called Learning Agreement, is agreed upon before leaving, depending on the courses, exams and activities that the student wants to focus on, according to his study plan. The student will then be able to get the credits needed to complete his study plan thanks to those professors who carefully compare the course contents of the University of

Milan to those of partner universities. It is possible to focus on history, but also to get some credits in departments different from humanities.

The Department has a permanent international representative. Every year a meeting is organised for those students who are leaving, so as to give them specific information about destinations and contacts.

The Department of History has international agreements for research and teaching development with other universities, for instance the Lomonosov University of Moscow. In this case, it is possible to plan specific study plans with the person in charge. The study will then be recognised according to the above criteria.

Furthermore, the Department of History is included in the Erasmus Plus-Placement Programme, which enables students who graduated within 12 months to access an exchange programme. Information about selection processes and international partners (archives, libraries, editors, cultural institutes) are available on the Department of History website. This programme enables students to access training experiences in order to get professional knowledge.

How to participate in Erasmus mobility programs

To gain access to mobility programs for study purposes, lasting 3-12 months, the enrolled students of the University of Milan must attend a public selection that starts usually around the month of February each year through the presentation of specific competition announcements, which contain information on available destinations, respective duration of the mobility, requirements and deadlines for submitting the online application.

The selection, aimed at evaluating the proposed study abroad program of the candidate, knowledge of a foreign language, especially when this is a preferential requirement, and the motivations behind the request, is performed by specially constituted commissions.

Each year, before the expiry of the competition announcements, the University organises information sessions for the specific study course or groups of study courses, in order to illustrate to students the opportunities and participation rules.

To finance stays abroad under the Erasmus + program, the European Union assigns to the selected students a scholarship that - while not covering the full cost of living abroad - is a useful contribution for additional costs as travel costs or greater cost of living in the country of destination.

The monthly amount of the communitarian scholarship is established annually at national level; additional contributions may be provided to students with disabilities.

In order to enable students in economic disadvantaged conditions to participate in Erasmus+ program, the University of Milan assigns further additional contributions; amount of this contributions and criteria for assigning them are established from year to year.

The University of Milan promotes the linguistic preparation of students selected for mobility programs, organising every year intensive courses in the following languages: English, French, German and Spanish.

The University in order to facilitate the organisation of the stay abroad and to guide students in choosing their destination offers a specific support service.
