# CHARACTERISTICS OF DEGREE PROGRAMME

#### General and specific learning objectives

The aim of the master programme in Philology, Literature and History of Antiquity is to provide students with in-depth training in the field of study traditionally defined as "Altertumswissenschaft". It is therefore meant to provide: secure knowledge of classical languages and literature, underpinned by a sound command of historical and theoretical linguistics as well as of philological tools; full mastering of methods and techniques for a critical approach to ancient sources (literary, linguistic, documentary, epigraphical, numismatic, archaeological, papyrological, etc.); clear awareness of the impact of ancient civilisation and classical heritage on the development of modern culture.

#### **Expected learning outcomes**

The expected learning outcomes are the following:

- in-depth and critical knowledge of ancient literature, underpinned by a secure command of classical languages and of the tools and methods of philological analysis;
- in-depth knowledge of ancient history, with reference to its political, institutional, economic and social aspects and to the cultural and artistic expressions;

- clear awareness of the impact of ancient civilisation and classical heritage on the development of modern culture;
- sound command of the methods for the use of sources in scholarly investigation, as applied to the different fields of study;
- understanding and knowledge of the structure of texts, with an ability to encode and decode them in their communication strategies;
- ability to place texts, events and cultural objects within their appropriate historical and geographical context;
- ability to interpret texts and documents of any genre and typology, in particular those pertaining to the disciplines selected by each student for more in-depth study;
- ability to select and create connections between diverse sources through a critical comparative and cross-disciplinary approach.

### Professional profile and employment opportunities

The master programme in Classics provides broad-spectrum professional skills to be used for career opportunities requiring advanced knowledge in the area of Humanities, the ability to produce and interpret texts as well as the ability to critically manage information. The employment opportunities open to graduates possessing a Masters degree in Philology, Literature and History of the Antiquity include work in areas such as those of publishing, editing, communication, public relations, information management, management of the cultural heritage, management of research centres in the field of the Humanities (libraries, archives, museums, boards for the management of cultural heritage, etc.), text production and human resources. The programme is also aimed at offering students the possibility to obtain credits (ECTS) in the appropriate disciplines necessary to qualify for training as a secondary-school teacher. Graduates with a Master's degree in Classics also qualify for access to PhD and second level Master's programmes within their area of specialization.

Proficiency in English at a B1 level or higher, under the Common European Framework of Reference for Languages (CEFR), is required for admission.

The B1-level requirement will be ascertained by the University Language Centre (SLAM) upon admission as follows:

- Language certificate at or above B1, obtained no more than three years earlier. For the list of language certificates recognized by the University please review: https://www.unimi.it/en/node/39267/). The certificate must be uploaded when submitting the online application;
- English level achieved during a Bachelor's degree programme through SLAM courses and tests. The test must have been passed within the last four years. It will be assessed administratively, without the applicant having to attach any certificates;
- Placement Test delivered by the University Language Centre (SLAM), which will take place according to the schedule posted to the website: https://www.unimi.it/en/node/39267/

All those who fail to submit a valid certificate or do not meet the required proficiency level will be invited to take the test through the admission procedure.

Candidates who do not sit or pass the placement test will have until 31 December 2022 to obtain and submit a recognized certificate to SLAM.

Students who do not meet the requirement by 31 December will not be admitted to the Master's degree programme and may not sit further tests.

In order to be admitted to academic year 2022-2023, candidates must meet all admission requirements (degree, any single exams, English language proficiency) by December 31, 2022.

The application for admission to the Master's degree programme must be submitted no later than August 26, 2022.

Enrolment will be open from April 1 to September 30, 2022, while those who graduate by December 31, 2022 must enrol by January 16, 2023.

At the time of submitting the application for admission, students who have not yet graduated and intend to enrol on this programme must have earned at least 130 credits in their Bachelor's degree programme.

#### Admission assessment

Candidates must meet curricular requirements and have achieved a degree mark higher than 95, as well as holding the above-mentioned English language certificate. Candidates with a degree mark lower than 96 will go through an orientation interview with an admission board. In any case, the board may require the candidate to sit for an interview at its discretion.

#### Compulsory attendance

Attending courses is strongly recommended. However, each course offers an ad-hoc syllabus for non-attending students. Workshop attendance is mandatory.

#### **Degree programme final exams**

The final exam, which corresponds to 27 ECTS, entails the writing of a master dissertation, approximately 120/150 pages long. Such dissertation is prepared under the supervision of an academic tutor ("relatore di tesi") and, as a rule, deals, in an accurate and in-depth manner, with a topic coherent with the learning path (and vocation) of the candidate and with the objectives of the master programme. With their dissertation and final defense candidates are expected to prove attainement of the necessary knowledge in the specific areas of the master programme, display command of the critical and methodological tools and demonstrate adequate argumentation and expression skills.

#### **Notes**

B2 graduation level

In order to obtain their degree, students must be proficient in English at a B2 level. This proficiency level may be certified as follows:

- Through a language certificate at a B2 level or higher, as submitted during the admission procedure;
- Through the entrance test (B2 level or higher);
- Through a Placement Test, which is delivered by the University Language Centre (SLAM) during year I only, from October to January (B2 or higher).

All students who do not have a B2 level or higher will be required to attend a B2-level English course, which will be delivered by the University Language Centre (SLAM), in the second semester of year I only.

Those who do not attend the course or do not pass the end-of-course test within six attempts must obtain a paid language certificate by graduation.

# EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment.

The agreements entered into by the University with over 300 universities from the 27 EU member countries and other Extra-EU countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

#### Study and internships abroad

The Department supports students' international mobility, through:

- Erasmus+ 'call for study': thanks to agreements signed by the Department with some UE Universities (Croatia, Estonia, France, Germany, Greece, Poland, Czech republic, Spain, Hungary, to which Swiss confederation and United Kingdom must be added), students can apply for about 40 fellowships. Funding allows students for study-abroad experiences (courses and exams) that will be recognized by Unimi, if they comply with the 'learning agreement' that must be signed before departure and approved by the Department's Erasmus committee.
- Erasmus+ 'Traineeship': funding allows students to do traineeships based at UE academic or research institutions (Swiss confederation included). Applicants to the Summer call should identify a host institution autonomously, whereas the Fall call offers traineeships based on the agreements signed by Unimi, among which some are offered by the Department.
- 'Thesis abroad' programme: funding allows students of Master degree to can carry out their thesis work at academic and research institutions abroad, with no geographical restriction.

#### How to participate in Erasmus mobility programs

The students of the University of Milan can participate in mobility programmes, through a public selection procedure.

Ad hoc commissions will evaluate:

- Academic career
- the candidate's proposed study programme abroad
- his/her foreign language proficiency
- the reasons behind his/her application

#### Call for applications and informative meetings

The public selection generally begins around February each year with the publication of a call for applications specifying the destinations, with the respective programme duration (from 2/3 to 12 months), requirements and online application deadline. Every year, before the deadline for the call, the University organizes informative meetings to illustrate opportunities and rules for participation to students.

#### Erasmus+ scholarship

The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which is supplemented by the University funding for disadvantaged students.

#### Language courses

Classical Mythology

Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by the University.
