CHARACTERISTICS OF DEGREE PROGRAMME

General and specific learning objectives

The graduate of the degree programme in Professional Education must know how to:

- plan, manage, and verify educational programmes aimed at promoting health and development of the potential of at-risk persons, to reach ever-increasing levels of autonomy;

- contribute to promoting and organising infrastructure and healthcare and social-welfare resources, in order to plan integrated educational projects;
- plan, organise, manage, and assess one's own professional activities within a social-welfare setting, or within a healthcare or rehabilitation or socio-developmental clinic, in a coordinated manner, working in concert with other professionals at such facilities, and by engaging interested parties and/or their families, community groups, and the community at large;
- work with families and in an integrated manner within a community in order to promote social cohesion and aggregation;
- offer and supervise play-therapy type activities;
- participate in study, research, and documentation activities in the pursuit of the aforementioned purposes.

Professional profile and employment opportunities

Professional Educators are Social Workers as defined under Ministry of Health Decree of 8 October 1998, no. 520. The degree programme allows one to practice in the profession.

The graduate in Professional Education formulates and executes educational programmes aimed at promoting personal development, and the social reintegration of persons with psycho-physical impairments, who are at risk of social isolation. Graduates work with children, youth, adults, and seniors to prevent and overcome difficulties and social impairments due to disability, deviance, dependence, poverty, disenfranchisement, and mental illness. As defined in Ministerial Decree 520/98, the Professional Educator performs his or her professional activities within a healthcare or rehabilitation or socio-developmental clinic whether in the public or private sector, in a residential or semi-residential facility, whether as an employee or as an independent contractor. Services may be ambulatory in nature (Ser.T, Psychosocial Centres or Centres for Mental Health, Initial Welcome Centre, etc.), day-care (Social-Educational Centres, Rehabilitation Day Clinics, Youth Community Centres, Psychiatric Day Centres, etc.), residential (Rehabilitation Communities, Skilled Nursing Facilities, Psychiatric Group Homes, Group Homes for the Disabled, etc.)

EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment

The agreements entered into by the University with over 300 universities from 30 different countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

How to participate in Erasmus mobility programs

The students of the University of Milan can participate in mobility programmes, which last 3 to 12 months, through a public selection procedure.

Ad hoc commissions will evaluate:

- the candidate's proposed study programme abroad;
- his/her foreign language proficiency;
- the reasons behind his/her application.

Call for applications and informative meetings:

The public selection generally begins around February each year with the publication of a call for applications specifying the destinations, with the respective programme duration, requirements and online application deadline.

Every year, before the deadline for the call, the University organizes informative meetings to illustrate opportunities and rules for participation to students.

Erasmus+ scholarship:

The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which is supplemented by the University funding for disadvantaged students.

Language courses:

Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by the University.
