HEADING

Degree classification - Denomination and code: LM-86 Animal husbandry

Degree title: Dottore Magistrale

Curricula currently available:
- ANIMAL FEEDING FOR HEALTH AND CONSUMER WELFARE
- PRODUCTION AND SAFETY OF FOOD OF ANIMAL ORIGIN
- BIOSAFETY IN ANIMAL HUSBANDRY
- LIVESTOCK AND FAUNA ECOSYSTEMS

Length of course: 2 years

Credits required for admission: 180

Total number of credits required to complete programme: 120

Years of course currently available: 1st, 2nd

Access procedures: Open, subject to entry requirements

Course code: H53

PERSONS/ROLES

Head of Study Programme
prof. Alessandro Bagnato

Tutors - Faculty
- Tutor per l’orientamento: prof. Guido Grilli
- Tutor per la mobilità internazionale e l’Erasmus: prof. Gabriele Brecchia
- Tutor per i piani di studio: prof. Alessandro Bagnato
- Tutor per stage e tirocini: prof.ssa Luisa Zaniboni
- Tutor per laboratori e altre attività: prof. Stefano Comazzi
- Tutor per tesi di laurea: prof. Giovanni Savoini
- Tutor per trasferimenti: prof. Alessandro Bagnato
- Tutor per ammissioni lauree magistrali: prof. Alessandro Bagnato
- Tutor per riconoscimento crediti: prof. Valerio Bronzo

CHARACTERISTICS OF DEGREE PROGRAMME

Notes
In order to get their degree, students are required to certify their knowledge of the English language at the B1 level. This level can be certified in one of the following ways:

- By submitting their language certificate, taken no more than 3 years before its submittal and attesting a B2 o higher level (for the list of the language certificates which are accepted by the University of Milan, please refer to the website: http://www.unimi.it/studenti/100312.htm).

Students can submit their language certificate during the immatriculation procedure or send it to the Language Centre of the University of Milan (SLAM) via the Infostudente service.

- By sitting the placement test run by SLAM, during the first year exclusively, from September to December. Should they not
pass the Placement Test, students will have to attend the English language course organized by SLAM. All students who do not have a valid language certificate must sit the Placement Test. Those students who do not sit the Placement test by December or do not pass the end of course test in one of the 6 attempts granted will have to get a language certificate outside the University of Milan within their degree.

**EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM**

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment.

The agreements entered into by the University with over 300 universities from the 27 EU member countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

**Study and internships abroad**

The Master Programme during the a.y. 2024-25 offers to students an Erasmus Blended Intensive Programme (BIP), which includes a Summer School (in presence) combined with online learning and cooperation activities. BIPs are a new type of short and intensive mobility under the Erasmus+ 2021-2027 Programme which, using innovative learning and teaching methods, allow students to carry out an internationalization experience that combines a short physical mobility with a mandatory online course.

Course title: The Rabbit: Livestock animal, Pet, and Experimental Model

Partners: University of Milan, Italy - University of Agronomic Sciences and Veterinary Medicine of Bucharest, Romania - Istanbul University-Cerrahpasa, Turkey - Universitat Politecnica De València, Spain

Period: second semester

Credits acquired: 9

The Course of Studies in the academic year 2024-25 offers students a course that aims to develop knowledge relating to scientific and regulatory challenges in the field of sustainability and agri-food innovation, with particular reference to the case of novel foods. The course is part of an Erasmus-funded project entitled "Feeding Future Generations Sustainably: Legal Challenges and Scientific Innovation – FeedInn- Jean Monnet Module" starting from

**How to participate in Erasmus mobility programs**

The students of the University of Milan can participate in mobility programmes, through a public selection procedure. Ad hoc commissions will evaluate:

- Academic career
- the candidate's proposed study programme abroad
- his/her foreign language proficiency
- the reasons behind his/her application

Call for applications and informative meetings

The public selection for Erasmus+ mobility for study generally begins around February each year with the publication of a call for applications specifying destinations and requirements. Regarding the Erasmus+ Mobility for Traineeship, the University of Milan usually publishes two calls a year enabling students to choose a destination defined by an inter-institutional agreement or to find a traineeship position on their own.

The University organizes informative meetings to illustrate mobility opportunities and rules for participation.

**Erasmus+ scholarship**

The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which may be supplemented by the University funding for disadvantaged students.

**Language courses**

Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by the University Language Centre (SLAM).
