HEADING

Degree classification - Denomination and code: LM-55 Cognitive sciences

Degree title: Dottore Magistrale

Curricula currently available: APPLIED COGNITIVE NEUROSCIENCE /

Length of course: 2 years

Credits required for admission: 180

Total number of credits required to complete programme: 120

Years of course currently available: 1st , 2nd

Access procedures: Cap on student, student selection based on entrance test

Course code: K03

PERSONS/ROLES

Head of Study Programme
Prof.ssa Ilaria Cutica

Tutors - Faculty
Per la mobilità internazionale e Erasmus:
prof.ssa Alessandra Gorini

Per i piani di studio, riconoscimento crediti e trasferimenti
prof.ssa Chiara Guglielmetti

Per l’orientamento e la tesi di laurea:
prof.ssa Ilaria Cutica

EXPERIENCE OF STUDY ABROAD AS PART OF THE TRAINING PROGRAM

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment.

The agreements entered into by the University with over 300 universities from the 27 EU member countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

Study and internships abroad
The Degree in Cognitive Science and Decision Making Processes has always developed a big interest in internationalization, defining exchange programs with various European universities. At present, active exchange programs involve University of Porto, Paris (Università Paris VI, Istituto Jean Nicod - Ecole Normale Supérieure and master in cognitive science COGMATER) and Maastricht. Thanks to the Erasmus Program, students can attend courses, internship, exams, and sometimes the elaboration of the thesis in different cultural context compared with the Italian one.

Students of the Degree in Cognitive Science and Decision Making Processes can plan their Erasmus during the first or the second year with a duration of 3, 6 and 9 month supported by a grant.
Foreseen training during the period of study must be approved by the responsible of the Erasmus program of each degree course. All the proposed activities (agreed with foreign university through learning agreement) are compatible with the foreseen study plan and enable to collect the required CFU.

Grades obtained by the student in the other European Countries are converted using the ECTS (European Credit Transfer System) table. The recognition in career is 20 CFU for 3 months stay, 30 CFU for 6 month and 60 CFU for 9 month.

The Double Degree program
Besides the Erasmus exchange programs, the University of Milan has stipulated a Double Degree conjoint agreement with the University of Maastricht (The Netherlands) which involves the Master in Cognitive Science and Decision Making Processes (University of Milan) and the Master of Science in Psychology (University of Maastricht). Such a program offers to the students of the biennium the possibility to spend the first year at the University of Milan, acquiring knowledge and basic skills and then to specialize in their specific area of interest attending the second year by the partner (host) University. Once obtained the established academic requirements by both universities, students of the Double Degree receive both the Laurea Magistrale in Cognitive Science and Decision Making Processes and the graduate degree (usually Master of Science) from the partner institution.

How to participate in Erasmus mobility programs
The students of the University of Milan can participate in mobility programmes, through a public selection procedure. Ad hoc commissions will evaluate:
• Academic career
• the candidate's proposed study programme abroad
• his/her foreign language proficiency
• the reasons behind his/her application

Call for applications and informative meetings
The public selection for Erasmus+ mobility for study generally begins around February each year with the publication of a call for applications specifying destinations and requirements. Regarding the Erasmus+ Mobility for Traineeship, the University of Milan usually publishes two calls a year enabling students to choose a destination defined by an inter-institutional agreement or to find a traineeship position on their own.

The University organizes informative meetings to illustrate mobility opportunities and rules for participation.

Erasmus+ scholarship
The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which may be supplemented by the University funding for disadvantaged students.

Language courses
Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by the University Language Centre (SLAM).
