CARATTERISTICHE DEL CORSO DI STUDI

Premessa

The LL.M. in Sustainable Development at the University of Milan is the first European Graduate Programme that aims at improving the legal skills necessary to better grasp the three interconnected dimensions (economic, social and environmental) of sustainable development. It offers students an in-depth interdisciplinary academic training to specialise in key issues agreed upon by the International Community within the 2030 Agenda for Sustainable Development "Transforming Our World" and the 17 Sustainable Development Goals (UNSDGs).

Obiettivi formativi generali e specifici

The LL.M. Programme offers an integrative curriculum to improve the synergies necessary to develop actions aimed at achieving a long-term improvement of the quality of life through the creation of sustainable legal strategies. The two year LL.M. Programme allows students to obtain advanced interdisciplinary training and knowledge of local, international and transnational trends and strategies for sustainable development.

The Programme's unusually rich course offering includes advanced courses in different areas, such as:

- International Law, European Union Law, Environmental Law, Administrative Law, Constitutional Law, Human Rights Law, International and European Criminal Law, Comparative Civil Procedure, Philosophy of Law, Private Law, Comparative Law, Corporate Law, Trade Law, Investment Law, Competition Law, Labour Law, Transport Law, Tax Law, Agriculture Law, Financial Law,

as well as courses in relevant economic and sociological disciplines, such as:

- Sociology, Economic Geography, Economics and Economy Policy, Economic History.

Profilo professionale e sbocchi occupazionali

The LL.M. in Sustainable Development aims at training legal experts, with a comprehensive background in the economic, social and environmental dimensions of sustainable development. Our graduates acquire the necessary skills to elaborate, support and assess sustainable legal and economic policies and strategies both in the Public and Private Sectors.

With regard to the Public Sector, the Programme aims at training legal experts able to integrate social, economic and environmental concerns in the central and local Public Administration's policies in key areas such as: telecommunication, new technologies, water, sanitation, health, electric power and gas, transportation, infrastructure, agriculture, green public procurement.

As regards the Private Sector, the LL.M. Programme aims at training ethically oriented corporate legal experts and economic operators, able to play a key role in monitoring, tracking, aligning and integrating social and environmental impacts in the business sector, in order to help companies to meet their corporate responsibility and sustainability goals.

More specifically, the LL.M. Programme aims at training the following professionals:

- Environmental and sustainability managers
- Experts in: management and audit of Public Administration, management and audit of private companies, human resources, work organization, financial activities, market analysis, company law, state company law, economic systems.

Struttura del corso

The LL.M. Programme is a two-year Programme (120 ECTS).

In the first year students mandatorily attend seven core courses (60 ECTS): International Law and International law on Sustainable Development, Economic Geography, Constitutionalism and Sustainable Development, Sociology, Economics and Economic Policy, World Economic History From Growth to Sustainable Development, The Role of Public Administration in Enhancing Equitable and Sustainable Development. These courses ensure that all enrolled students acquire a solid "common basis" to understand the complexity and the interdependencies of sustainable development.

In the second year (60 ECTS), each student chooses to specialize in one of the following two streams:

- "Human Rights and Social Development"
- "Development Economics, Trade, Finance, Investment, Competition".

Students of both streams are required to attend 4 electives chosen from either of the streams' rich course offerings.

A total remaining of 36 ECTS must be completed through other formative activities: one optional course (9 ECTS) chosen from the courses offered by the Faculty of Law of University of Milan, or 3 optional legal clinics or workshops offered in the first and second year of the LL.M. + an internship + a final dissertation.

Articolazione degli insegnamenti

The Programme uses a wide range of solution-oriented educational methods tailored to the learners. In addition to traditional frontal lecturing, there are: discussions, simulations, surveys, analysis, case studies, writing research papers, directed studies, workplace experience and problem solving.

Caratteristiche Tirocinio

Internships and trainings are integral part of the LL.M. Programme. Subject to their practical feasibility and consistency with the study programme, the LL.M offers preferential access to internships and trainings at local administrations, non-profit and civil society associations (NGOs and charities), international organizations operating in the field of development cooperation, law firms, trade unions, private sector companies, professional associations, foundations, banks, cooperatives and social economy companies. Internships help students to prepare projects and case studies that can be the starting point for their final thesis.
