### **CARATTERISTICHE DEL CORSO DI STUDI**

#### **Premessa**

The Laurea Magistrale in Sustainable Development (LL.M. in Sustainable Development) at the University of Milan is the first European Graduate Programme that aims at improving the legal skills necessary to better grasp the three interconnected dimensions (economic, social and environmental) of sustainable development. It offers students an in-depth interdisciplinary academic training to specialise in key issues agreed upon by the International Community within the 2030 Agenda for Sustainable Development “Transforming Our World” and the 17 Sustainable Development Goals (UNSDGs).

#### **Obiettivi formativi generali e specifici**

The LL.M. Programme offers an integrative curriculum to improve the synergies necessary to develop actions aimed at achieving a long-term improvement of the quality of life and development through the creation of sustainable legal strategies. The two year LL.M. Programme allows students to obtain advanced interdisciplinary training and knowledge of local, international and transnational trends and strategies for sustainable development.

The Programme's unusually rich course offering includes advanced courses in different areas of law, such as:

- International Law, European Union Law, Environmental Law, Administrative Law, Constitutional Law, Human Rights Law, Philosophy of Law, Private Law, Comparative Law, Corporate Law, Trade Law, Investment Law, Labour Law, Transport Law, Agriculture Law, Financial Law, Refugee Law

as well as course in relevant economic and sociological disciplines, such as:

- Sociology, Economic Geography, Economics, Economy Policy and Social Justice, Economic History.

#### **Profilo professionale e sbocchi occupazionali**

The LL.M. in Sustainable Development aims at training legal experts, with a comprehensive background in the economic, social and environmental dimensions of sustainable development. Our graduates acquire the necessary skills to elaborate,

support and assess sustainable legal and economic policies and strategies both in the public and private sectors. With regard to the public sector, the Programme aims at training legal experts able to integrate social, economic and environmental concerns in the central and local Public Administration's policies in key areas such as: telecommunication, new technologies, water, sanitation, health, electric power and gas, transportation, infrastructure, agriculture, green public procurement.

As regards the private sector, the LL.M. Programme aims at training ethically oriented corporate legal experts and economic operators, able to play a key role in monitoring, tracking, aligning and integrating the social and environmental impacts in the business sector, in order to help companies to meet their corporate responsibility and sustainability goals.

Furthermore, the LL.M. Programme aims at training environmental and sustainability managers and consultants and experts in management and audit of Public Administration and private companies.

## **Struttura del corso**

The LL.M. Programme is a two-year Programme (120 ECTS).

In the first year students mandatorily attend seven core courses (60 ECTS): International Law and International Law on Sustainable Development, Economic Geography, Global Constitutional Law, Sociology, Economics, Economic Policy and Social Justice, World Economic History from Growth to Sustainable Development, The Role of Public Administration in Enhancing Equitable and Sustainable Development. These courses ensure that all enrolled students acquire a solid "common basis" to understand the complexity and the interdependencies of sustainable development.

In the second year (60 ECTS), students are required to attend four elective courses among those offered. Elective courses are organised into four streams:

Stream 1: Economic Development

Stream 2: Human Rights and Social Development

Stream 3: Environmental Protection

Stream 4: Rule of Law

Students may choose to specialise in one of the streams or tailor their study plan to their individual preferences.

In order to take the exams of the 2nd year, students must have passed all the exams of the 1st year.

## **LL.M. IN SUSTAINABLE DEVELOPMENT MAIN FEATURES**

- 120 ECTS in 4 semesters.
- Working language: English.
- Four specialization streams: Economic Development; Human Rights and Social Development; Environmental Protection; Rule of Law.
- The LL.M. in Sustainable Development offered by the University of Milan is a Postgraduate Second Cycle Master Programme (Laurea Magistrale). Students who are awarded qualification (i.e. completion of the second cycle) hold a 2nd level degree recognized by all the European countries and organizations adhering to the Bologna Process and the European Higher Education Area.

Head of Studies LLM in Sustainable Development: Prof. Angelica Bonfanti

## **Articolazione degli insegnamenti**

The Programme - entirely taught in English - uses a wide range of solution-oriented educational methods tailored to the learners. In addition to traditional frontal lecturing, there are: discussions, simulations, surveys, analysis, case studies, research papers, directed studies and workplace experience.

## **Caratteristiche Tirocinio**

Internships and trainings are integral part of the LL.M. Programme. Subject to their practical feasibility and consistency with the study programme, the LL.M offers preferential access to internships and trainings at local administrations, non-profit and civil society associations (NGOs and charities), international organizations operating in the field of development cooperation, law firms, trade unions, private companies, professional associations, foundations, banks and cooperatives. Internships help students to prepare projects and case studies that can be the starting point for their final thesis.
