**CARATTERISTICHE DEL CORSO DI STUDI**

**Premessa**
The two-year master's degree in Economics and Political Science (EPS) aims at developing a highly qualified learning track in the fields of economics and political science.
In modern times economics and political science have been growing out of the same trunk, represented by moral and political philosophy. While drawing their origin and inspiration from this common matrix, the two fields have soon organised themselves according to autonomous epistemological statutes, to which distinct conceptual frameworks
Conoscenze per l'accesso

Profilo professionale e sbocchi occupazionali

Abilità e competenze acquisite

Obiettivi formativi generali e specifici

Eligible candidates must meet the following requirements:

- They must have earned at least 60 ECTS credits or equivalent in the following fields: business administration, management, mathematics, philosophy, sociology, and so on, provided that their bachelor's degree may belong to any one of the "classi di laurea" (degree classes) listed below.

Applicants who completed their undergraduate studies in foreign Universities are eligible for admission if they hold a "laurea" degree belonging to any one of the "classi di laurea" (degree classes) listed below under the heading "Note 1".

The language of instruction is English.

Admission is based on academic excellence. Applicants should have a bachelor’s degree or equivalent; a strong interest and/or previous studies in economics, political science or related subjects; undergraduate or graduate training in mathematics and quantitative methods or a strong motivation to quickly fill their gaps in these fields; a sound knowledge of spoken and written English. The evaluation process will take into consideration the applicants’ prior academic record, their motivation and performance at the interview (see below).

More specifically, applicants who obtained their bachelor’s degrees from Italian Universities are eligible for admission if they hold a “laurea” degree belonging to any one of the “classi di laurea” (degree classes) listed below under the heading "Note 1".

Applicants who completed their undergraduate studies in foreign Universities are eligible for admission if they hold a bachelor’s degree in economics, political science, or other broadly related subjects (from history to industrial engineering, from management to mathematics, from philosophy to sociology, and so on), provided that their bachelor’s degree may be regarded as equivalent to one of the Italian “laurea” degrees listed below.

Eligible candidates must meet the following requirements:

a) They must have earned at least 60 ECTS credits or equivalent in the following fields: business administration,
computer science, economics, law, management, mathematics, philosophy, political science, sociology or statistics. The ECTS credit value of foreign applicants’ undergraduate studies will be assessed by the EPS admissions committee. Applicants holding an Italian bachelor’s degree must have earned the required credits within the set of admissible “settori scientifico-disciplinari” (disciplinary scientific sectors) listed below under the heading “Note 2”.

Among these, at least 6 credits should have been earned within the following “settori scientifico-disciplinari” (disciplinary scientific sectors): MAT/01 - Logica matematica; MAT/02 – Algebra; MAT/03 – Geometria; MAT/05 - Analisi matematica; MAT/06 - Probabilità e statistica matematica; MAT/08 - Analisi numerica; MAT/09 - Ricerca operativa; SECS-S/06 - Metodi matematici dell’economia e delle scienze attuariali e finanziarie.

Applicants who completed their undergraduate studies in foreign Universities should exhibit a comparable academic record or competence in logics, statistics and mathematics.

Candidates will have the possibility to participate to crash-courses of Microeconomics, Mathematics and Statistics organized by the Department. The crash-courses are meant to boost the skills in these three fields.

In the absence of the above requirements, applicants can also prove that they have adequate quantitative skills through satisfactory results in the GRE or GMAT tests.

b) Non-native speakers of English must be able to demonstrate their knowledge of English either by showing they have at least one year of university studies at institutions where the language of instruction is English, or during the interview. IELTS or TOEFL results, if provided by applicants, will be taken into account.

c) GRE or GMAT results, if provided by applicants, will be taken into account.

Applicants meeting the above requirements will be invited to a skype interview.

Struttura del corso

The EPS degree is a genuinely multidisciplinary programme, presenting a balanced offer of courses in economics and political science, introduced by a few supplementary courses in mathematics, game theory and quantitative and qualitative research methods.

Students must earn 120 ECTS credits to complete programme requirements; among them, 33 credits (27.5% of the total) are dedicated to additional educational and research activities, for example dissertation writing, research seminars and elective courses.

Area didattica

Faculty of Political, Economic and Social Sciences - Via Conservatorio, 7 - 20122 MILANO

Prove di lingua / Informatica
Formulazione e presentazione piano di studi
Students may choose a complete study plan starting from the first year

Caratteristiche della prova finale
The final exam consists in the submission and public discussion, in front of a committee, of a master’s dissertation. The master’s dissertation is an original piece of work, written by the candidate under the guidance of a supervisor.

Criteri di ammissione alla prova finale
Having earned at least 99 credits for the learning activities contemplated by his/her study plan, a student may be admitted to undertake the final exam leading to the award of the master’s degree. A total of 21 credits are reserved to the design, preparation and writing up of the master’s dissertation. The formal assignment of these credits can only take place at the moment when the dissertation is completed and discussed and the final exam is passed.

ESPERIENZA DI STUDIO ALL’ESTERO NELL’AMBITO DEL PERCORSO FORMATIVO
The University of Milan supports the international mobility of its students, offering them the opportunity to spend periods of study and training abroad, a unique opportunity to enrich their curriculum in an international context.

Cosa offre il corso di studi
The degree in Economics and Political Science offers the opportunity to study at several European universities, where students will be able to attend lectures and obtain credits for their degree. Our partners are selected among the most prestigious academic institutions in France (SciencesPo), Germany (University of Mannheim), Norway (University of Oslo), and other European countries. A bilateral agreement with the Catholic University of Louvain (Belgium) allows a limited number of students to obtain a double degree in Sciences Economique and Economics and Political Science issued by both institutions. Moreover, an exchange with the HSBC Business School, Peking University Shenzhen (China), has been running since 2014. Finally, a new Exchange program with Plekhanov Russian University of Economics (Moscow, Russian Federation) has been activated in the a.y. 2016-17. The modules offered by our partners include core subjects and disciplines of Economics and Political Science such as Industrial Organization, Welfare Economics, European Law, Comparative and International Politics. The choice of modules is made by students before their departure in collaboration with the programme coordinator; the credits are recognized officially and included in the curriculum at the end of the exchange period.

The degree in Economics and Political Science also offers the opportunity to participate in internship programmes at institutions such as the ITUC - International Trade Union Confederation, OSE - Observatoire Social Européen, ETUI – European Trade Union Institute, EAPN – European Anti-Poverty Networks of Brussels and the Italian Chamber of Commerce in Hong Kong and Macao. Internships may also earn students credits to be included in their curriculum.

Modalità di partecipazione ai programmi di mobilità - mobilità Erasmus
To gain access to mobility programs for study purposes, lasting 3-12 months, the enrolled students of the University of Milan must attend a public selection that starts usually around the month of February each year through the presentation of specific competition announcements, which contain information on available destinations, respective duration of the mobility, requirements and deadlines for submitting the online application.

The selection, aimed at evaluating the proposed study abroad program of the candidate, knowledge of a foreign language, especially when this is a preferential requirement, and the motivations behind the request, is performed by specially constituted commissions.

Each year, before the expiry of the competition announcements, the University organises information sessions for the specific study course or groups of study courses, in order to illustrate to students the opportunities and participation rules.

To finance stays abroad under the Erasmus + program, the European Union assigns to the selected students a scholarship that - while not covering the full cost of living abroad - is a useful contribution for additional costs as travel costs or greater cost of living in the country of destination.

The monthly amount of the communitarian scholarship is established annually at national level; additional contributions may be provided to students with disabilities.

In order to enable students in economic disadvantaged conditions to participate in the Erasmus+ program, the University of Milan assigns further additional contributions; amount of these contributions and criteria for assigning them are established from year to year.

The University of Milan promotes the linguistic preparation of students selected for mobility programs, organising every year intensive courses in the following languages: English, French, German and Spanish.
The University in order to facilitate the organisation of the stay abroad and to assist students in the choice of their destinations offers a specific support service.

More information in Italian are available on www.unimi.it > Studenti > Studiare all'estero > Erasmus+

MODALITA’ DI ACCESSO: 1° ANNO LIBERO CON VALUTAZIONE DEI REQUISITI DI ACCESSO

Istruzioni operative
Applicants, both foreign and Italian holding a bachelor’s degree or expecting to obtain it by December 31st, 2019, must apply for admission to the EPS programme from March 1st to July 12th, 2019.
Non-EU Applicants from outside Italy holding a non-Italian bachelor’s degree or expecting to obtain it by December 31st, 2019, must submit a pre-application at the Italian Embassy of their own country.
Applicants will be selected on the basis of an interview, which aim is to ascertaining the applicants’ motivations as well as their personal knowledge, competences, and skills in the core areas of the EPS programme. For an idea of the appropriate level of knowledge, competences, and skills, candidates may consult the following textbooks:

Economics:

Political science:

Quantitative methods (introductory calculus and linear algebra):

Applicants will be contacted for a skype interview.

Further detailed information concerning the EPS programme are available at www.eps.unimi.it. For any other information, which is absent in the website, please contact the programme secretariat: eps@unimi.it; tel. +39 02 503-21527 - +39 02 503-21553; fax +39 02 503-21505.

N° posti riservati a studenti extracomunitari non soggiornanti in Italia
50

MODALITA’ DI ACCESSO: 2° ANNO

Note
EPS does not accept transfer students at the second year. If interested, the student has to follow the admission process as a first year student. Nevertheless, his/her previous exams may be recognized as EPS exams.
