

UNIVERSITA' DEGLI STUDI DI MILANO
MANIFESTO DEGLI STUDI A.A. 2024/25
LAUREA MAGISTRALE A CICLO UNICO IN
MEDICINA E CHIRURGIA - (Classe LM-41) International Medical
School
Enrolled since 2022/23 Academic Year

GENERALITA'

Classe di laurea di appartenenza:	LM-41 MEDICINA E CHIRURGIA
Titolo rilasciato:	Dottore Magistrale
Durata del corso di studi:	6 anni
Cfu da acquisire totali:	360
Annualità attivate:	1°, 2°, 3°
Modalità accesso:	Programmato
Codice corso di studi:	D56

RIFERIMENTI

Presidente Collegio Didattico

Professor Anna Marozzi

Docenti tutor

Academic guidance tutor:

Prof. Iacopo Chiodini – iacopo.chiodini@unimi.it

Prof. Daniela Lucini – daniela.lucini@unimi.it

Prof. Gabriella Cerri – gabriella.cerri@unimi.it

Dissertation tutor:

Prof. Maura Francolini – maura.francolini@unimi.it

University and programme transfer tutor, credit recognition tutor:

Prof. Federico Ambrogi – federico.ambrogi@unimi.it

Prof. Matteo Pecchiari – matteo.pecchiari@unimi.it

Erasmus and international mobility tutor:

Prof. Silvia Della Bella – erasmus.ims@unimi.it

CARATTERISTICHE DEL CORSO DI STUDI

Premessa

These regulations apply to the teaching activities and management of the single cycle degree course in Medicine and Surgery known as University of Milan International Medical School (IMS) as part of class LM-41 in the Faculty of Medicine and Surgery at the University of Milan. IMS is based at the LITA-Interdisciplinary Laboratory of Advanced Technologies, in Segrate. The clinical training (years III-IV-V-VI year) is performed at ASST Grande Ospedale Metropolitano Niguarda, as IMS reference hospital, and in other medical centers affiliated with the University of Milan. Duration of the course: six years

Obiettivi formativi generali e specifici

The degree course consists of 360 credits overall, spread over a six-year program, of which at least 60 must be acquired in training aimed at the acquisition of specific professional abilities. Graduates in the degree courses in Medicine and Surgery must have:

1) acquired the scientific bases and the necessary theoretical-practical preparation to Directive 75/363/CEE on the practice of

the medical profession;

- 2) acquired a level of professional awareness, decisional and operative autonomy safety with a deep sensitivity to the complex human problems and social diseases;
- 3) acquired the theoretical knowledge arising from basic sciences and the ability to properly apply it in the perspective of subsequent professional application;
- 4) acquired the knowledge of physiopathology and organ and apparatus pathologies, interpreting them in the light of basic scientific knowledge from a clinical point of view;
- 5) acquired the competence to properly obtain and examine data and elements related to the state of health and illness of an individual;
- 6) acquired the ability and the experience of facing, and solving, the priority health problems considering the preventive, diagnostic, prognostic, therapeutic and rehabilitative aspects;
- 7) been exposed to the content and methods of scientific research as a tool to access the clinical field, always in the context of a training translational "from bench-to-bedside" and vice versa;
- 8) acquired the knowledge of historic, epistemological and ethical dimension of medicine;
- 9) acquired how to communicate properly and clearly with the patient and his/her relatives relating to them with humanity;
- 10) learnt how to co-operate with the different professional figures in the various health activities they will be exposed to;
- 11) learn how to apply the principles of health economics in medical decisions and acquired the ability to recognize health problems in the community and intervene in a competent manner.

Profilo professionale e sbocchi occupazionali

The professional profile of our graduates is characterized by a sound scientific knowledge of diseases and diagnostic procedures, by a strong ethical structure, accountability, consciousness of his/her own limitations, understanding of culture diversity, capability to solve urgent health problems, and respect for each individual, regardless of his/her religion, values, race, sex or any other peculiarities. They are supposed to mature a strongly integrated approach to the patient, critically assessing the clinical as much as the relational aspects. During the course they acquire the educational, social and ethical aspects involved in the prevention, diagnosis and treatment of illness, as well as the rehabilitation and recovery of the highest possible level of psychophysical well-being. Our graduates are exposed to the content and methods of scientific research in the context of a translational training aimed at leading them in their lifelong learning and/or in their profession of biomedical scientists. Graduates in the Medicine and Surgery degree courses acquire the professional profile adequate to carry out medical-surgical work in the different professional clinical, health and bio-medical roles and spheres.

The achievement of the IMS degree enables to practice as a physician (Legislative Decree 17-3-2020, n.18, Art.102) and to register in the Italian medical register, upon acquisition of a positive evaluation in the Evaluation Training Internship, as referred to Art.3 of the Decree of the Ministry of Education, University and research (MUR) 9-5-2018, n.58. Graduates can pursue a medical career in a wide range of clinical, healthcare and bio-medical roles and domains. IMS degree is a prerequisite for entering medical Residencies programs, the School of General Medicine (upon National Admission test) and/or PhD programs (upon Universities Admission test).

Conoscenze per l'accesso

All the degree courses in Medicine and Surgery of the Faculty of Medicine and Surgery of the University of Milan have programmed access and require an admission test. Upon the Law 264 date 2.8.1999, the test is the same for all Italian public universities offering an international medical curriculum, and takes place on the same day at the same time all over the world. The main focus of the admission test is to examine and judge the fundamentals of scientific knowledge and reasoning. The number of students who can be admitted is defined annually by a Decree of the Ministry of Education and Research (MUR), taking account of the training potential declared by the university on the basis of the teaching and clinical resources and structures available, and also the requirements reported by the Lombardy Region and the Ministry of Health. Candidates who have a High School Diploma, or alternative qualification achieved abroad and recognized as suitable, can be admitted to the single cycle degree courses in Medicine and Surgery. Candidates in eligible positions in the ranking of the admission test must enroll according to the procedure of the university.

The admission test (International Medical Admissions Test, IMAT) is designed by the Italian Ministry of University and Research. The admission test consists of sixty (60) multiple choice questions with five options (of which only one is correct) on the following topics: general knowledge and logical reasoning; biology; chemistry; physics and mathematics.

Additional Formative Obligations (OFA)

Students admitted with a total score of less than 45/90 and who have achieved a score of less than 17,5/34,5 for the questions evaluating the knowledge of Biology, will be assigned additional educational obligations (OFA). These obligations consist in on purpose activities. Failure to pass the OFA will not allow to take the examination of Cells, Molecules and Genes 1. Details on OFA will be advertised on the website: <https://ims.cdl.unimi.it/en>.

Lecture Planning

Academic Calendar of teaching activities:

- first semester courses are scheduled from mid-September through the end of January, for all years except the 1st year course, usually beginning mid-October;
- the courses of the second semester are scheduled from the first week of March to half June.

The schedules of classes and non-formal activities (exercises, professionalizing activities, etc.) are published on the IMS website:

Struttura del corso

The course of study provides a plurality of learning activities to expose the student to all possible aspects of medical professionalism. To this aim students attend a Common Track lasting from 1st to the 6th year. At the end of the first semester of the 5th year, students will choose 1 among 10 different multidisciplinary courses (Final Track) designed to provide students an in-depth study of the most relevant health topics. By choosing 1 out of the 10 Final Tracks, the student will be exposed to topics fitting with his/her interest and will acquire a background knowledge to orient themselves in choice of their career and their professional figure, suited to their cultural and personal interests and attitudes.

The course, divided into 12 semesters, delivers 360 CFU:

1) 274 CFU teaching activities scheduled as follows:

- 264 CFU Common Track;
- 10 CFU Final Track.

Theoretical knowledge will be acquired with different modalities:

- traditional lectures and seminars;
- interactive teaching (small groups of students supervised by a tutor supporting students in acquiring knowledge, abilities and behavioral models by presenting problem that have to be solved by students through adequate decisions - problem based learning (PBL); clinical cases discussion; journal clubs);
- classroom practical activities and laboratories.

2) 60 CFU ward clinical (in ward or outpatient clinic) activities to practice medical skills scheduled as follows:

- 41 CFU: Common Track clinical training activities practical medical skills;
- 4 CFU: Final Track clinical training activities practical medical skills related to the main topics of the chosen Track.
- 15 CFU: evaluation internships (5th-6th year) subdivided in: 5CFU in Surgery Area, 5CFU Medical Area, 5CFU General medicine area. Positive evaluation is needed to be admitted to graduation and to practice as Physicians.

3) 8 CFU: individually selected activities (Electives) scheduled as follows:

- 5 CFU Common Track Electives
- 3 CFU Final Track Electives.

4) 18 CFU: preparation of the final Thesis.

ADMISSION TO THE FOLLOWING YEARS

Only those students who have successfully taken the examinations set out in the table below by the end of the session in September are permitted to move from one year of the course to the next:

To enroll in the III year the following exams must have been taken:

- Fundamentals of biomedical Imaging basic sciences;
- Functions I –II.

In order to guarantee a productive learning during the professionalizing activities at the bedside for non-native Italian speaking students, to enroll into the third year of the course it is required a level B2 or higher (Common European Framework of Reference for languages - CEFR) certificate of knowledge of Italian language.

To enroll in the IV year the following exams must have been taken:

- Mechanisms of diseases.

To enroll in the V year the following exams must have been taken:

- Fundamentals of clinical medicine 1-2-3
- Fundamental Pharmacology and therapeutics

Obiezione di coscienza

In compliance with Act No. 413 of October 12, 1993 "Regulations on conscientious objection to animal experimentation", the Faculty of Medicine recognizes the undisputed right to conscientious objection by students. Students may be exonerated from the attendance at laboratory exercises in which testing is scheduled on live or dead animals. The achievement of the scientific and practical knowledge for passing the exams will be granted, in accordance with the educational objectives of the specific degree programs, through substitutive methods suggested by the teachers.

Area didattica

The campus for the preclinical activities of the International Medical School (year I and II of the programme) is the LITA- Interdisciplinary Laboratory of Advanced Technologies (Segrate). In the clinical years (years III-IV-V- VI of the programme), the theoretical classes take place in LITA, while the clinical training is performed at ASST Grande Ospedale Metropolitano Niguarda, as IMS reference hospital, as well as in other medical centers affiliated with the Faculty of Medicine of the University of Milan. The evaluation internships (TPV – Tirocini Pratico Valutativi) during the V and VI year of programme are organized in all the medical centers affiliated with the Faculty of Medicine of the University of Milan.

Articolazione degli insegnamenti

Both synchronous and asynchronous modalities will be adopted during the course.

a) Lectures and seminars

A lecture is the presentation by the teacher of the course content regarded as fundamental for the acquisition of the basic

knowledge in a given discipline. A seminar is similar to a lecture but is jointly conducted by the teacher and lecturers with specific expertise, and it is aimed at introducing the students to medical topics with a broad perspective.

With asynchronous modality students learn from learning material (prerecorded video lessons or game-based learning tasks, papers, chapters of textbooks..) that students complete on their own in a given time assigned by the teacher. The asynchronous modality encompasses a wide variety of instructional interactions with the teacher (email exchanges between teachers, online discussion boards, self-assessments -among many other possible variations-) mandatory to verify the acquisition of knowledge on the topics assigned to students.

b) Interactive teaching

Interactive teaching activities geared towards a small group of students and co-ordinated by a tutor, with a view to facilitating the students in acquiring knowledge, abilities and behavioural models. Learning mainly takes place through the stimuli from the analysis of problems finalized to their solution through adequate decisions. Interactive learning includes: problem based learning (PBL); clinical cases discussion; journal clubs; practical activities, role playing activities. Interactive teaching takes place also in the clinical wards and laboratories, with the assistance of qualified university or hospital professionals.

Elective training chosen by the Students

The course provides training for specific optional topics chosen by the student, available throughout the entire course of study. These selected activities offer the student the opportunity to analyse specific or innovative subjects, choosing from a range of suggestions offered each year by the Faculty. Selected activities may be of different types, and attendance is compulsory. This course will privilege elective courses tailored to education to basic research in the first 2 preclinical years and translational research in the following years. The three types of selected activity are configured-as:

1. seminar type courses;
2. internships;
3. participation in conferences and congresses.

Similarly, a fourth type of selected activity can be configured:

4. 'summer internships', whose regulation is covered by Art. 8 of the Faculty Regulations on Selected Activities.

The student will mature 1 credit for every three conferences/congresses attended during the chosen course of study for Type 3 activities (attendance at conferences and congresses). The student can acquire a maximum of 1 credit for attending Type 3 activities (attendance at conferences and congresses) during the period of the chosen studies.

The specific regulation of selected activities can be found in the Faculty Regulations on Selected Activities.

Prove di lingua / Informatica

The candidate students should be aware that even though knowledge of the Italian language is not a prerequisite for matriculation to IMS, a good level of knowledge of Italian language (level B2 or higher - CEFR) is required to access the clinical activities at the third year of the programme.

This level can be assessed by the end of the second year in the following ways:

- by submitting a language certificate achieved no more than three years prior to the submission, at level B2 or higher, recognised by the University (the list of recognised language certificates can be found at: <https://www.unimi.it/en/node/349/>). The language certificate must be submitted through Informastudenti (<https://informastudenti.unimi.it/saw/ess?AUTH=SAML>), by choosing the category 'Language test';
- by an entry-level test, organised by SLAM, to be taken at the beginning of the first year of study.

Students who attain B2 level through a certificate or the entry-level test access the clinical activities at the third year of the programme.

Students who fail to reach level B2 will have to attend one or more Italian language courses (based on their starting level) organised by SLAM.

Those who will not sit the entry-level test or those who will not pass the end-of-course test after 6 tries will have to get a language certificate by themselves in order to have access to clinical activities in the third year.

Obbligo di frequenza

The student is required to attend all the teaching activities, with a tolerance of no more than 1/3 of the hours, according to the Regolamento. Students are required to sign their attendance at each learning activities. Should the number of absences be higher than 1/3, the Teaching Committee will take the necessary measures.

Modalità di valutazione del profitto

Each course has a single exam, which is always individual, and the mark will be expressed in thirtieths.

Ongoing tests (prove in itinere) are also performed, exclusively with a view to confirming the effectiveness of the learning and teaching processes in relation to the course content and do not have any official certifying value.

<https://ims.cdl.unimi.it/en/study/exams>

Caratteristiche della prova finale

The final test enables 18 training credits (CFU) to be acquired and focuses on the discussion of an original thesis written by the student under the guidance of a controlling member of staff (supervisor).

Criteri di ammissione alla prova finale

The degree examination focuses on the discussion of an original thesis written in English by the student under the guidance of a controlling member of staff; an assistant supervisor may also be involved.

The student has to have taken all the examinations set out in the study plan and obtained a total of 342 teaching credits to be admitted to the degree examination.

The final marks, out of a total of 110, are decided by:

- a. the mark for the presentation in the degree session (average out of 110, based on the marks of the overall curriculum);
- b. the score allocated by the degree commission.

The scores allocated to each candidate by the members of the commission are secret. The maximum number of scores that may be allocated by the degree commission is 10, in addition to the average presentation marks. Candidates whose presentation mark is at least 102 can obtain full marks with honors (110 cum Laude), only when proposed and unanimously approved by the commission.

ESPERIENZA DI STUDIO ALL'ESTERO NELL'AMBITO DEL PERCORSO FORMATIVO

The University of Milan supports international mobility by providing its students with the opportunity to spend study and internship periods abroad. It is a unique chance to enrich your educational path in a new exciting environment.

The agreements entered into by the University with over 300 universities from the 27 EU member countries under the European Erasmus+ programme allow regularly enrolled students to carry out part of their studies at one of the partner universities or to undertake internships at companies, training and research centres and other organizations.

Similar international mobility opportunities are provided outside Europe, through agreements with a number of prestigious institutions.

Cosa offre il corso di studi

During the Degree course, students can participate to study and internship experiences abroad within the Erasmus + Programme. Students can apply for the recognition of the periods of study abroad as Electives.

Modalità di partecipazione ai programmi di mobilità - mobilità Erasmus

The students of the University of Milan can participate in mobility programmes, through a public selection procedure.

Ad hoc commissions will evaluate:

- Academic career
- the candidate's proposed study programme abroad
- his/her foreign language proficiency
- the reasons behind his/her application

Call for applications and informative meetings

The public selection for Erasmus+ mobility for study generally begins around February each year with the publication of a call for applications specifying destinations and requirements. Regarding the Erasmus+ Mobility for Traineeship, the University of Milan usually publishes two calls a year enabling students to choose a destination defined by an inter-institutional agreement or to find a traineeship position on their own.

The University organizes informative meetings to illustrate mobility opportunities and rules for participation.

Erasmus+ scholarship

The European Union grants the winners of the Erasmus+ programme selection a scholarship to contribute to their mobility costs, which may be supplemented by the University funding for disadvantaged students.

Language courses

Students who pass the selections for mobility programmes can benefit from intensive foreign language courses offered each year by the University Language Centre (SLAM).

INTRODUCTION:

All IMS students will attend all the Core/Compulsory curriculum courses scheduled from the 1st semester of the 1st year to the 1st semester of the 6th year. During the 2nd semestre fo the 5th year students will chose a multidisciplinary course, the final TRACK, among the 10 options (Tracks from 1 to 10) offered by the IMS school and listed in the Table below. The formal learning activities related to each Track are scheduled in the 1st semester of the 6th year while the track-related clerkships and elective activities are scheduled in the 2nd semester of the 6th year to allow students to perform these activities abroad (exchanges programs).

1° ANNO DI CORSO Attività formative obbligatorie

Attività a scelta

By the end of 6 years students should acquire also 8 credits/ECTS in optional clerkships to be chosen among the following:

annuale	Clinical and surgical pathology (Clerkship) - Pathology		3	MED/08
annuale	Clinical imaging (Clerkship) - Radiology		1	MED/36
annuale	Clinical oncology, emato-oncology and radiotherapy - Blood diseases (Clerkship)		3	MED/15
annuale	Clinical oncology, emato-oncology and radiotherapy - Oncology (Clerkship)		3	MED/06
annuale	Clinical oncology, emato-oncology and radiotherapy - Pathology (Clerkship)		3	MED/08
annuale	Clinical oncology, emato-oncology and radiotherapy - Pharmacology (Clerkship)		3	BIO/14
annuale	Clinical oncology, emato-oncology and radiotherapy - Radiology (Clerkship)		3	MED/36
annuale	Emergencies - Anesthesiology (Clerkship)		3	MED/41
annuale	Emergencies - General surgery (Clerkship)		3	MED/18
annuale	Emergencies - Internal medicine (Clerkship)		3	MED/09

Altre attività a scelta				
At the end of the 2nd semester of 5th year students must choose the last exam (Track) of the IMC course among the 10 Track options				
1 semestre	Track 01 (Community-based and lifestyle medicine) (tot. cfu:10)	Physiology	1	BIO/09
		Genetics	1	MED/03
		Medical oncology	1	MED/06
		Internal medicine	1	MED/09
		Mental health	1	MED/25
		Rehabilitation medicine	2	MED/34
		Dermatology	1	MED/35
		Pediatrics	1	MED/38
		Obstetrics, gynecology	1	MED/40
1 semestre	Track 02 (Primary care) (tot. cfu:10)	Internal medicine	2	MED/09
		Mental health	1	MED/25
		Odontostomatological diseases	1	MED/28
		Ophthalmological diseases	1	MED/30
		Otorhinolaryngological diseases	1	MED/31
		Pediatrics	1	MED/38
		Child neuropsychiatry	1	MED/39
		Obstetrics, gynecology	1	MED/40
		Nursing	1	MED/45
1 semestre	Track 03 (Management of chronicity) (tot. cfu:10)	Pharmacology	1	BIO/14
		Internal medicine	1	MED/09
		Respiratory diseases	1	MED/10
		Cardiovascular diseases	1	MED/11
		Gastroenterology	1	MED/12
		Endocrinology	1	MED/13
		Nephrology	1	MED/14
		Rheumatology	1	MED/16
		Mental health	1	MED/25
		Neurology	1	MED/26
1 semestre	Track 04 (Cancer) (tot. cfu:10)	General pathology and immunology	1	MED/04
		Medical oncology	3	MED/06
		Pathology	1	MED/08
		Respiratory diseases	1	MED/10
		Gastroenterology	1	MED/12
		Blood diseases	1	MED/15
		Radiology and radiotherapy	1	MED/36
		Pediatrics	1	MED/38
1 semestre	Track 05 (Public, global and occupational health and healthcare management) (tot. cfu:10)	Pharmacology	1	BIO/14
		General pathology and immunology	1	MED/04
		Microbiology	1	MED/07
		Infectious diseases	1	MED/17
		General and applied hygiene	2	MED/42
		Forensic medicine	2	MED/43
		Occupational medicine	2	MED/44
1 semestre	Track 06 (Intensive and emergency care) (tot. cfu:10)	Internal medicine	1	MED/09
		Cardiovascular diseases	1	MED/11
		General surgery	1	MED/18
		Cardiac surgery	1	MED/23
		Neurology	1	MED/26
		Neurosurgery	1	MED/27
		Orthopedics	1	MED/33
		Radiology and radiotherapy	1	MED/36
		Anesthesiology	2	MED/41
1 semestre	Track 07 (Surgical approach to diseases) (tot. cfu:10)	General surgery	1	MED/18
		Plastic surgery	1	MED/19
		Pediatric surgery	1	MED/20
		Vascular surgery	1	MED/22
		Cardiac surgery	1	MED/23
		Urology	1	MED/24
		Neurosurgery	1	MED/27
		Maxillofacial surgery	1	MED/29
		Ophthalmological diseases	1	MED/30
		Orthopedics	1	MED/33
1 semestre	Track 08 (Surgical and interventional oncology) (tot. cfu:10)	General surgery	2	MED/18
		Plastic surgery	1	MED/19
		Thoracic surgery	1	MED/21
		Urology	1	MED/24
		Neurosurgery	1	MED/27
		Maxillofacial surgery	1	MED/29
		Otorhinolaryngology	1	MED/31
		Orthopedics	1	MED/33
		Obstetrics, gynecology	1	MED/40
1 semestre	Track 09 (Advanced techniques in diagnostics and interventional imaging) (tot. cfu:10)	Anatomy	1	BIO/16
		Pathology	1	MED/08
		Cardiovascular diseases	1	MED/11

		Gastroenterology	1	MED/12
		Neurology	1	MED/26
		Ophthalmological diseases	1	MED/30
		Audiology	1	MED/32
		Radiology and radiotherapy	2	MED/36
		Neuroradiology	1	MED/37
1 semestre	Track 10 (Methodological approach to biomedical research) (tot. cfu:10)	Physiology	1	BIO/09
		Pharmacology	1	BIO/14
		Anatomy	1	BIO/16
		Histology and embryology	1	BIO/17
		Genetics	1	MED/03
		General pathology and immunology	1	MED/04
		Clinical pathology	1	MED/05
		Microbiology	1	MED/07
		Pathology	1	MED/08
		Laboratory medicine	1	MED/46
2 semestre	Track 01 (Community-based and lifestyle medicine) (Clerkship) (tot. cfu:4)	Internal medicine	2	MED/09
		Mental health	1	MED/25
		Fisical training sciences and methodology	1	M-EDF/01
2 semestre	Track 02 (Primary care) (Clerkship) (tot. cfu:4)	Internal medicine	2	MED/09
		Midwifery	1	MED/47
		Clinical psychology	1	M-PSI/08
2 semestre	Track 03 (Management of cronicity) (Clerkship) (tot. cfu:4)	Internal Medicine	1	MED/09
		Rehabilitation medicine	1	MED/24
		Physical training sciences and methodology	1	M-EDF/01
		Clinical psychology	1	M-PSI/08
2 semestre	Track 04 (Cancer) (Clerkship) (tot. cfu:4)	Medical oncology	1	MED/06
		Radiology and radiotherapy	1	MED/36
		Anesthesiology	1	MED/41
		Clinical psychology	1	M-PSI/08
2 semestre	Track 05 (Public, global and occupational health and healthcare management) (Clerkship) (tot. cfu:4)	Medical statistics	1	MED/01
		Medical history	1	MED/02
		General and applied hygiene	1	MED/42
		Forensic medicine	1	MED/43
2 semestre	Track 06 (Intensive and emergency care) (Clerkship) (tot. cfu:4)	Internal medicine	1	MED/09
		General surgery	1	MED/18
		Pediatrics	1	MED/38
		Anesthesiology	1	MED/41
2 semestre	Track 07 (Surgical approach to diseases) (Clerkship) (tot. cfu:4)	General surgery	1	MED/18
		Odontostomatological diseases	1	MED/28
		Ophthalmology	1	MED/30
		Obstetrics and gynecology	1	MED/40
2 semestre	Track 08 (Surgical and interventional oncology) (Clerkship) (tot. cfu:4)	Gastroenterology	1	MED/12
		General surgery	1	MED/18
		Pediatric surgery	1	MED/20
		Radiology and radiotherapy	1	MED/36
2 semestre	Track 09 (Advanced techniques in diagnostics and interventional imaging) (Clerkship) (tot. cfu:4)	Vascular surgery	1	MED/22
		Radiology and radiotherapy	1	MED/36
		Neuroradiology	1	MED/37
		Biotechnology and methods in laboratory medicine	1	MED/46
2 semestre	Track 10 (Methodological approach to biomedical research) (Clerkship) (tot. cfu:4)	Biochimica clinica	1	BIO/12
		Medica statistics	1	MED/01
		Medical history	1	MED/02
		Biotechnology and methods in laboratory medicine	1	MED/46

By the end of 6 years students should acquire 8 credits in elective activities.

Attività conclusive

	Final examination		18	NA
		Totale CFU obbligatori	18	

PROPEDEUTICITA'

Il corso di studi prevede le seguenti propedeuticità obbligatorie o consigliate

Attività Formativa

Attività formative propedeutiche

Anatomy	Histology	Obbligatoria
Biochemistry	Fundamentals_of_basic_sciences	Obbligatoria
	Cells, molecules and genes	Obbligatoria
Emergencies_	Fundamentals of clinical medicine 3	Obbligatoria
	Fundamentals of clinical medicine 2	Obbligatoria
	Fundamentals of clinical medicine 1	Obbligatoria
	Clinical imaging	Obbligatoria
	Clinical_and_surgical_pathology	Obbligatoria

	Fundamental pharmacology and therapeutics	Obbligatoria
	Neurological and behavioural disorders	Obbligatoria
Functions 1	Anatomy	Obbligatoria
	Biochemistry	Obbligatoria
Functions 2	Anatomy	Obbligatoria
	Biochemistry	Obbligatoria
Fundamental pharmacology and therapeutics	Foundational pharmacological principles	Obbligatoria
Fundamentals of clinical medicine 1	Mechanisms_of_diseases	Obbligatoria
	Microbiology	Obbligatoria
Fundamentals of clinical medicine 2	Mechanisms_of_diseases	Obbligatoria
	Microbiology	Obbligatoria
Fundamentals of clinical medicine 3	Mechanisms_of_diseases	Obbligatoria
	Microbiology	Obbligatoria
Fundamentals of surgery	Fundamentals of clinical medicine 3	Obbligatoria
	Fundamentals of clinical medicine 2	Obbligatoria
	Fundamentals of clinical medicine 1	Obbligatoria
	Clinical imaging	Obbligatoria
	Clinical_and_surgical_pathology	Obbligatoria
	Fundamental pharmacology and therapeutics	Obbligatoria
	Neurological and behavioural disorders	Obbligatoria
Genetics	Fundamentals_of_basic_sciences	Obbligatoria
	Cells, molecules and genes	Obbligatoria
Mechanisms_of_diseases	Anatomy	Obbligatoria
	Biochemistry	Obbligatoria
	Genetics	Obbligatoria
Medical sciences and clinical investigation	Fundamentals of clinical medicine 3	Obbligatoria
	Fundamentals of clinical medicine 2	Obbligatoria
	Fundamentals of clinical medicine 1	Obbligatoria
	Clinical imaging	Obbligatoria
	Clinical_and_surgical_pathology	Obbligatoria
	Fundamental pharmacology and therapeutics	Obbligatoria
	Neurological and behavioural disorders	Obbligatoria
Multidisciplinary clinical management	Fundamentals of surgery	Obbligatoria
	Medical sciences and clinical investigation	Obbligatoria
Translational medicine and biotechnologies 1	Microbiology	Obbligatoria
Translational medicine and biotechnologies 2	Translational medicine and biotechnologies 1	Obbligatoria

RICONOSCIMENTI E VECCHI ORDINAMENTI

Riconoscimenti

The studies carried out at other courses in the State university of Milan and in other universities, and the credits awarded as their result, will be acknowledged by the Faculty on the proposal of the Teaching Co-ordination Committee (TCC) for Medicine and Surgery, which may set up an ad hoc commission. If the criteria for progression from one year to another have been satisfied, the commission will indicate the examinations confirmed and the course year to which the student may be admitted. Enrolment in a specific year of the course is, in any case, subject to the availability of positions, on the basis of the maximum number of students scheduled for admission by the Faculty.

Criteri di obsolescenza dei crediti

The Ects acquired for each exam expire 10 years after its acquisition, and require confirmation and validation.

Lapsing of studies

Student status will lapse after three (3) consecutive years in which the student did not pass any exam. That period is extended to eight (8) years for those enrolled up until 2019-2020.

Students status does not lapse if they pass at least 1 exam before the 3 academic years since the last exam passed go by, or if they only have to sit the final degree exam/thesis and have acquired all the credits required, except those of the final exam.
