

## HAPPY POWER Innovative pathways for wellbeing education

## May 8-9, 2025 Sala Malliani

Via Festa del Perdono 7 Università degli Studi di Milano

Join explore the us to preliminary outcomes of the Happy Power project, initiative aimed at enhancing students' wellbeing through innovative teaching practices inspired by positive psychology and digital tools. Faculty and students from the five partner universities will share their experiences in using the app and educational resources developed within the project.

These pilot-tested tools will be at the center of an open dialogue among participants, contributing to the design of the next project phase.

## **AGENDA**
