## **ESSE Doctoral Symposium 2023**

24-25 August 2023

Università degli Studi di Milano  
Sala Napoleonica, via S. Antonio 12,  
Milano (Italy)

On August 24 and 25 2023 the University of Milan will host the ESSE Doctoral Symposium, an annual event designed especially for young researchers which provides them with a valuable opportunity to connect with fellow scholars and showcase their academic work in a stimulating setting.

The purpose of the ESSE Doctoral Symposium is to provide a platform for young scholars to present their work and receive feedback. The participants are PhD students from across Europe who are writing their theses in English Studies and are at least in the second year of that process. The Symposium has three strands: English Language & Linguistics; Literatures in English; Cultural & Area Studies. The students' presentations will deal with the issues addressed in their doctoral research, the results so far obtained, and above all the methodology applied.

Over thirty PhD students will present their work, share their insights and discuss their findings with fellow students and more senior researchers.
